Dear [REDACTED]

Our industry, supporting fully the EU objective of climate neutrality by 2050 and the enabling measures, is very concerned about the current discussion of the DA on Taxonomy due for publication on 21st April and the way out we hear the Commission is considering for gas.

In this context, we would like to talk with you quite urgently, in fact in the following days, like end of days or early mornings if it suits you better.

Looking forward to your response,

With my very best regards,

[REDACTED]
