Subject: Fwd: Meeting Request to discuss Responsible Sourcing

Dear Personal Data Protection [redacted]

Thank you for your response and your proposal which I am happy to accept also on behalf of my colleagues from FEFAC and COCERAL.

Indeed, It is difficult to anticipate how long confinement will be maintained. The date you suggest is certainly feasible. We are fine to book the 22 April at 14:00.

Personal Data Protection [redacted]@coceral.com) and Personal Data Protection [redacted]@fefac.eu) would both join me on that occasion.

In the meantime, we get more experienced with all sorts of remote conferencing systems and would consider this being an alternative, should a physical meeting still not be possible.

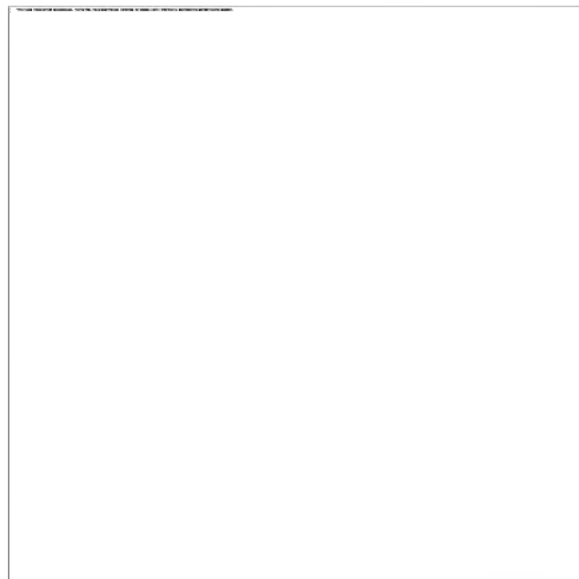

Best regards

Personal Data Protection [redacted]

Dear **Personal Data Protection**

On behalf of Ms Geslain-Laneelle thank you for your message below and the meeting request. I am pleased to confirm that Ms Geslain-Laneelle will be available to meet you.

Waiting for some more clarity about the COVID-19 crisis and the meeting restrictions of the European Commission, I delayed the reply a little bit. Anyway it is obvious that the situation may change from one day to the other even after the confinement period, so I suggest we book a date for the meeting and closer to the date we will decide if we will hold it (in the Commission premises or via teleconference) or we will postpone it.

Having said that, may I propose to schedule the meeting on 22 April at 14.00 or at 15.00.

If that date does not suit your agendas, please don't hesitate to come back with another proposal.

Thank you in advance and looking forward to hearing from you.

Objet: Meeting Request to discuss Responsible Sourcing

Dear Mrs Geslain,

COCERAL, FEDIOL and FEFAC together represent the EU grain and oilseed trade, oilseed crushing and animal feed industry. Our members trade, process oilseeds and feed material and provide high-quality, nutritious, safe and sustainable products at all times to the food and livestock industry and to non-food sectors.

We are cooperating on the many challenges our sectors face in providing constant supplies to EU crop and livestock farmers and to EU bioeconomy industries.

Among the different EU policies under preparation, we are giving particular attention to responsible sourcing of commodities aimed at avoiding deforestation or other adverse environmental and climate change impacts, a topic which will be addressed as part of the Strategy on Biodiversity.

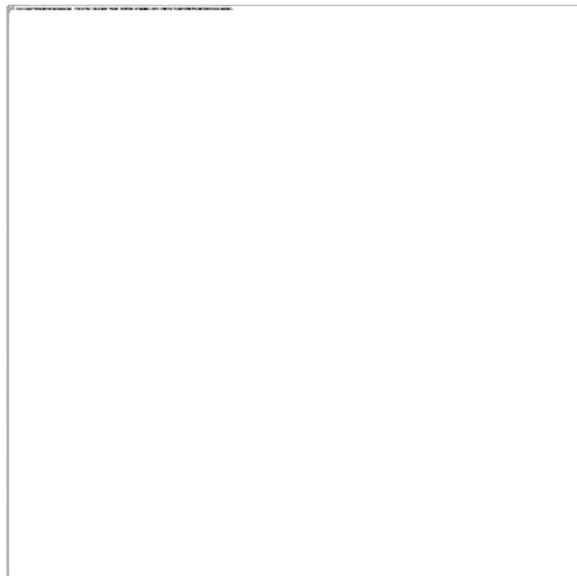

We would like to discuss during a meeting with you how Europe could address the topic through a set of policy tools and objectives and explain the efforts already undertaken by our industries to transform our supply chains and eliminate the risk of deforestation from the commodities we source.

I would like to thank you in advance for your time and consideration.

On behalf of COCERAL, FEDIOL and FEFAC
