**Subject:** Completion of Climate Check decarbonisation tool for dairy farmers  
**Attachments:** Kadri Simson\_\_Arla Foods Climate Check letter 26 April 2021.pdf

Dear Commissioner

It gives me great pleasure to inform you that Arla Foods has completed the validation of our Climate Check model, a tool to calculate the carbon footprint of almost 8,000 of our dairy farmers.

This is a major achievement which has significant implications for Arla Foods and the wider EU dairy sector. In addition to providing one of the largest externally validated data sets in the world, the Climate Check tool has also identified a set of “levers” to continue to accelerate decarbonisation in the dairy sector over the next decade.

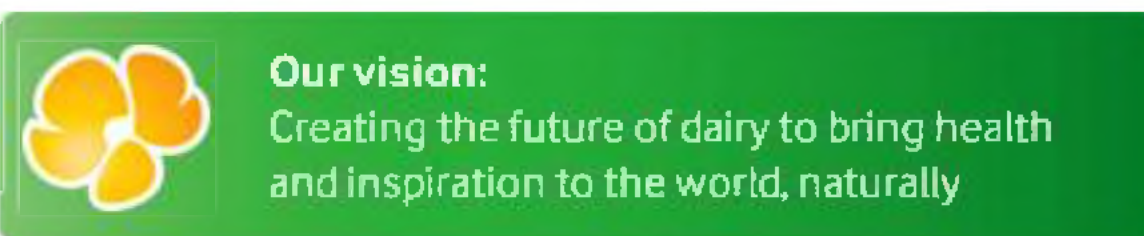

Please find attached a letter which goes into more detail on our Climate Check model and how we, as Arla Foods, are continually working to achieve tangible climate results in line with the EU’s ambitions.

I would like to thank you for considering the contents of this letter and how it will impact EU decision making on key EU legislative files of relevance. On that basis, we would very much welcome the opportunity to go into further detail with you, share our experiences and best practices.

Med venlig hilsen / Best regards

[redacted]  
CEO
