Good afternoon, dear [REDACTED],

On behalf of the [REDACTED] I would like to thank you for this kind request to organise a meeting.

The [REDACTED] would be glad to meet your [REDACTED]. However, the closest time to look for a date would be in June. Would that be OK with you?

Dear [REDACTED],

As mentioned below, our [REDACTED], would be glad to have a meeting in order present the recently-published [Hydrogen Act](#), to views on the paper and reply to any question you might have. I would be glad to support the organisation of a call at your earliest convenience.

Kind regards,

[REDACTED]

Dear [REDACTED],

On behalf of the [REDACTED] thank you once again for your kind invitation. She has suggested you contact [REDACTED], whom I have put in copy of this email and who may be in a better position to participate.

The [REDACTED] sends her best wishes for a successful event.

Kind regards,
[REDACTED]

Dear [REDACTED]

Thank you very much for your time just now. I am following up on our previous communication with a request to have a meeting with our [REDACTED], in order to present the Hydrogen Act to [REDACTED] and exchange views.

Thank you in advance for your cooperation!

Kind regards,

[REDACTED]

Dear [REDACTED]

With reference to the communication below, I am glad to share with you the final version of the Hydrogen Act which was published last Wednesday. We would be happy to arrange separate meetings to present this to you, exchange views and answer any of your questions.

Many thanks for your consideration.

Kind regards,

[REDACTED]

Subject: UNDER EMBARGO: "Hydrogen Act"

Dear [REDACTED]

It is my please pleasure to send to you Hydrogen Europe's follow up to our [2x40 GW paper](#): the "Hydrogen Act" (attached). The European Commission's ambitious strategy on Hydrogen has set in motion a chain reaction across Europe and the world, and the global race for hydrogen is on. The EU strategy has set the ambition high and now it is time to turn ambition into reality via concrete action. The rapid development of hydrogen is not only important for meeting the EU's climate

objectives but also for preserving and enhancing the EU's industrial and economic competitiveness.

We need to scale up clean hydrogen fast and develop a framework to support its development. Focusing on hydrogen market and infrastructure aspects, the Hydrogen Act proposes a vision for an umbrella framework aimed at harmonising and integrating all separate hydrogen related actions and legislations.

This paper will be presented and launched on Wednesday 7th April at the conference organised by the Portuguese Presidency: *Hydrogen society, Bridging the Gaps*. I am sending this paper to you, in confidence, ahead of time.

We do hope that this paper will prove helpful in relation to the Commission's upcoming work. We would be happy to arrange separate meetings to present this to you, exchange views and answer any of your questions.

Many thanks for your consideration. I remain,

Sincerely yours,
