Dear [REDACTED],

Many thanks for sharing the connection links. I had in the past some issues with Skype due to our internal system. Do you have the possibility to hold the meeting on Webex, or shall I set up a Teams call? If not, I will certainly find a solution.

Best, [REDACTED]

Dear [REDACTED],

Many thanks for coming back to me so shortly.

Monday 14th at 15:30 would be the best option on my side.

Best regards,
[REDACTED]

Dear [REDACTED],

I am referring to the below exchange .

Would Monday 14th at 15:30 or Tuesday 15th at 11h30 be suitable on your side ?

For transparency purposes, this meeting will be published in the Transparency Register of the European Commission.

The Cabinet does not intend to communicate actively on the content of this meeting. However, in line with Regulation (EC) No 1049/2001, minutes can be made accessible to the public upon request (without any disclosure of protected interests).

Best regards,
[REDACTED]

Dear [REDACTED],

Many thanks for your kind invitation. It would have been with great pleasure. Unfortunately I am not available to join at the requested date and time.

As for your request to discuss the competitive bidding issues, I am available to discuss. [REDACTED], in copy, will get in touch suggesting a few dates. I will also invite experts from the DG comp team to attend the call.

Kind regards,

Anne

Dear Ms. Jensen,

Following my invitation below and an exchange with [REDACTED], I would be delighted to invite you to join **SolarPower Europe Strategy Quarterly Webinar**, to exchange about the current draft of the Energy and Environmental Protection Guidelines. Having you as a representative of the European Commission focused specifically on the topic of State Aid would be of high value for us. I attach the agenda of our discussion.

In addition, and following our letter to Executive Vice-President Vestager on the topic of competitive bidding processes for small renewables, I would be highly interested to organise a short phone call with you in the coming days to better understand the rationale of the European Commission on that matter.

Best regards,

Subject: SolarPower Europe_ Invitation to attend our Strategy Quarterly Webinar - 23rd June 14:00 to 15:00
Importance: High

Dear Mr. Jørgensen,

I am delighted to invite you to **SolarPower Europe's next Strategy Quarterly webinar on the 23rd of June from 14:00 to 15:00**, for a Chatham House rules exchange on the upcoming revision of the State Aid guidelines for Energy and Environment expected this month. We have gathered key representatives from National Solar Associations and EU solar companies to provide you with feedback on the current State Aid guidelines provisions and renewable energy support schemes and

to discuss with you how European State Aid can efficiently support a large-scale deployment of innovative solar PV technologies. We would in particular be delighted to discuss the role of competitive bidding processes, as highlighted in our recent letter to Executive Vice-President Vestager.

Solar PV technologies have achieved immense cost reductions in the past years, and are today more cost-competitive than fossil fuels. Yet, due to the nature of electricity markets, support mechanisms will still play an important role to accelerate the installation of more solar capacities in Europe at the lowest costs. The shaping of support mechanisms, similarly to public procurement, will also play a crucial role in shaping the future of the solar PV capacities, and can drive the deployment of the most innovative, sustainable and efficient technologies. Finally, regulatory frameworks can accelerate the route to cost-competitiveness of the most sustainable hydrogen source and avoid investing in so-called 'bridge technologies'. I attach to this email a two-pager summarising our key points and position papers.

It would be an honour to count with your participation in our meeting, and we hope it could be valuable feedback for you and your team.

Looking forward to hearing from you,

Yours sincerely,
