Subject: FW: draft flash report: Meeting with France Industrie

On 14 December, GROW F met with representatives of France Industrie for an exchange of view on industrial policy-related issues. Participants GROW: Slawomir Tokarski (Director F), [REDACTED]; Participants France Industrie: [REDACTED]

France Industrie expressed support for the EU industrial strategy and the approach on industrial ecosystems and industrial alliances to foster common projects. They consider the high-level governance for the industrial strategy important and are motivated to contribute (France Industrie was a member of the previous Strategic Forum on Important Projects of Common European Interest). France is setting up a National Hydrogen Council involving France Industrie members.

We explained further the approach for industrial alliances in particular the governance of the European Clean Hydrogen Alliance, the role of industrial ecosystems and the role of the upcoming Industrial Forum high-level expert group.
