Dear [Name],

Thank you for your letter of 28 May outlining COPA-COGECA’s views for the state of play of the negotiations on the CAP reform. I have taken due note of your position and the useful information you have provided, which has also been passed on to the Commission services in charge of each of the specific subjects.

I regret that no agreement was reached during the last trilogues. However, the Commission will continue to play its full role in the negotiations with the co-legislators in order to reach an agreement in the shortest possible timeframe.

The Commission supports a new CAP that is fairer and includes a strong environmental and climate ambition. The reformed policy must support a transition of European agriculture so that it can provide real socio-economic, environmental and climate benefits for farmers, citizens and for our planet.

Therefore, we are committed to work with the Council and the European Parliament to make the CAP reflect our European Green Deal priorities, in line with our Farm to Fork and Biodiversity strategies.

Yours sincerely,
