Subject: Agreed HSC documents + Next Masterfile for feedback
Attachments: HSC_Common RAT list_3rd update_Agreed_070721.docx; Addendum to the 3rd update of RAT common list_070721.docx

Dear experts of the technical working group on COVID-19 diagnostic tests,

First of all, good news! All proposals put forward by you were accepted by the HSC today. The documents will be published tomorrow, but, for info, attached the final documents that were agreed.

Secondly, please note that on CIRCABC, in the folder '6th meeting' we have uploaded a new Masterfile that you can use to provide feedback on the new proposals and some of the pending issues the last meeting. In the folder, in the first column, we have indicated what needs to be done and by who. Please write your feedback in this column (so please feel free to overwrite the instructions in the cell).

We would be grateful for your feedback by Friday 9 July COB. As before, please upload your feedback in the 'expert feedback' folder, by indicating your name in the file name.

Best regards,
TWG Secretariat
