Subject: Publication of the HSC document on RAT

Dear members of the HSC,
Dear colleagues,

We would like to inform you that, based on further information submitted by Member States and follow-up communication with France, it was decided **not** to include the three additional rapid antigen tests as was proposed by France yesterday afternoon, but will be considered in the next update of the document.

Therefore, the version of the HSC document on RAT, as agreed yesterday by the Committee, has now been published on the Commission website.

You can find a short press release here:

https://ec.europa.eu/commission/presscorner/detail/en/mex_21_682

The document is available here:

https://ec.europa.eu/health/sites/health/files/preparedness_response/docs/covid-19_rat_common-list_en.pdf

Kind regards,
HSC Secretariat
