**Subject:** Update RAT common list - published

Dear members of the Health Security Committee,  
Dear colleagues,

Following the HSC agreement yesterday on the update of the common RAT list, the Commission has published today a short press release. You can find it here: [Daily News 11 / 05 / 2021 \(europa.eu\)](#). The updated list can be found here: [https://ec.europa.eu/health/sites/default/files/preparedness\\_response/docs/covid-19\\_rat\\_common-list\\_en.pdf](https://ec.europa.eu/health/sites/default/files/preparedness_response/docs/covid-19_rat_common-list_en.pdf).

Note that it is now possible for RAT manufacturers – via the website of the JRC COVID-19 In Vitro Diagnostic Devices and Test Methods Database - to submit information and data they believe is relevant for the HSC to consider in future updates. See here under the heading 'Contribute': [COVID-19 In Vitro Diagnostic Devices and Test Methods Database | COVID-19 In Vitro Diagnostic Devices and Test Methods Database \(europa.eu\)](#). Moreover, in case rapid antigen tests are not included in the JRC Database, manufacturers are invited to submit this information here: [https://covid-19-diagnostics.jrc.ec.europa.eu/contact/feedback\\_ant](https://covid-19-diagnostics.jrc.ec.europa.eu/contact/feedback_ant).

Best regards,

HSC Secretariat
