Subject: RE: TTC

Dear Alejandro and Elina—

Apologies for the delay in getting you a revised list of TTC participation from the U.S. side, and I also wanted to say that we appreciated the call with a number of your colleagues last week. Please find attached a slightly updated list of US lead participants.

We look forward to seeing your participants and to getting the TTC working groups launched (as well, of course, as the in-person meeting in September!).

Best,
