Subject: Flash Report - U.S.-EU ENERGY SECURITY TASK FORCE Clean Tech

Dear Paula,
Dear [REDACTED] and [REDACTED],

Please find attached a flash report from today's call with the US and companies on clean tech, EE and decreasing consumption as prepared by [REDACTED].

Thank you to your teams for helping set this up at a short notice!

Best regards,

[REDACTED]

**U.S.-EU ENERGY SECURITY TASK FORCE:
Clean Technologies**

Melanie Nakagawa (US) – Intro on the EU-US joint statement and the work of the Task Force, meeting seeks to facilitate the deployment of clean technologies and reduce our demand for natural gas.

Ditte Juul Jorgensen (EC) – Intro on Repower EU and the EU-IEA 9 point plan, underlining the importance of energy efficiency in reducing consumption and imports of Russian fossils.

MS interventions

- [REDACTED] outlined their ambitious national plans on energy efficiency and demands, as well as campaigns to motivate consumers to save energy

Company and Trade Association Moderated Discussion

Melanie – asking companies and associations on what government actions can reduce roadblocks for the rapid deployment of these technologies and how future convenings of this group could help unlock and accelerate the uptake of these technologies.

US industries & EU associations – Main Points
