Subject: meeting with microsoft 15/3/2022

Subject: Microsoft approach to Europe's digital plans

Main points

Microsoft presented its approach

- to engage with EU authorities and give its contribution to the regulatory and policy actions
- to align with EU values
- to contribute to the European ecosystem as a whole
- to engage with authorities at home in the US

They understand the logic of the EU approach, the data strategy and support the Data act. They want to be part of it because they have something to offer.

They briefly compared the FR and DE solutions on sovereign cloud, highlighting what they see as shortcoming in terms of cost for the users in FR. They offered to provide additional information to support their claim

On cybersecurity they promote their cloud solution and will share insights on the role of cloud to ensure better protection from cyber attack

On DSA/DMA they are already aligning with the spirit of the provisions while they are being finalised
