---

Dear [REDACTED],

Thank you for your message and my apologies for coming back to you only now.

I would be pleased to meet with you, together with the [REDACTED]'s team in DG TRADE dealing with the TSD review.

As I am on holidays next week, I suggest to find a slot when I am back in the office (as of 19 April). My colleague [REDACTED] can help us find a suitable slot.

Best wishes,

[REDACTED]

**Subject:** TSD enforcement

Dear Andrea Beltramello,

Allow me to introduce myself, my name is [REDACTED] and I am [REDACTED] of the TSD Platform [www.tsplatform.eu](http://www.tsplatform.eu) The TSD Platform brings together a diverse set of stakeholders, including trade unions, environmental and human rights NGOs, to strengthen the enforcement of labour and environmental provisions in EU Free Trade Agreements.

In light of the ongoing discussion to reform the TSD Chapters we have put forward a set of recommendations. These include:

1. Pre-ratification conditionality
2. Staged implementation of tariffs
3. Specific, measurable and enforceable sustainability obligations
4. Enhanced public participation and transparency during the design, implementation and enforcement of TSD chapters
5. Possibility of sanctions for non-compliance

You can find more details about these recommendations in the attached position paper.

Furthermore, we would like to request a meeting with you to discuss the above.

We looking forward to hearing from you.

With kind regards,

 TSD Platform
