Subject: Meeting request – ADAN [REDACTED] on crypto-assets

Dear Mr. Denis,

We are reaching out [REDACTED] French crypto-asset association to explore the possibility of a virtual in the coming weeks to discuss the Commission's recent proposals on the markets in crypto-assets (MiCA) as well as on the Pilot Regime for DLT market infrastructures.

We are sharing attached a general presentation on crypto-assets which was put together by a delegation from the French, German, and Slovenian crypto-asset associations for a European Parliament Assistant Briefing event sponsored in October by MEP Ondrej Kovarik on crypto-assets which could be useful ahead of our discussions.

As brief background, ADAN is the French association representing companies in the digital assets and blockchain technologies sector.

We very much hope that a virtual meeting will be possible and look forward to hearing back from you.

ADAN's transparency register [REDACTED]

Best regards,
[REDACTED]
