sessment of the original goals		

rengths  This is the first 2 years in a probably ten-year long effort to transform the way children with disabilities are cared for in	
particular in Eastern MS	
r's a very good start that sets the basis for achieving the goals (support children at home and in the community, not in institutions)	
nmary of progress of your action	
ctivity	
ssessment of the activity	
<ul> <li>Has the project been implemented according to the work  </li> <li>How do you assess the quality of the outputs produced?</li> </ul>	programme?
Strengths	Weaknesses
The aims were well achieved. The children expressed themselves orally an re-wrote the declaration that concerns them into a way which is easier for them to understand. the use of graphics has helped, and th children felt empowered to express their needs, in spite of the stigma and the fact that four languages were coming together (I witnessed this)	
ssessment of the activity  - Has the project been implemented according to the work	programme?
- How do you assess the quality of the outputs produced?	
Strengths  The project has helped deliver involvement of the necessary public services at high level and produce the action plans to achieve the ultimate objective of deinstitutionalisation	Weaknesses
ctivity	
ssessment of the activity	
<ul> <li>Has the project been implemented according to the work p</li> <li>How do you assess the quality of the outputs produced?</li> </ul>	programme?
Strengths	Weaknesses
The tool was provided as planned	

i	1
Strengths	Weaknesses
The three MS (plus UK, coordinator) came together into recognising common goeals and common issues to tackle	
Assessment of the partners or stakeholders	
•	
How effectively were partners/stakeholders involved?	
Strengths	Weaknesses
Very well	
Assessment of the equality	
<ul> <li>Did the organisation's team include an appropriate mix of per</li> <li>Were the activities accessible to all?</li> <li>Was the gender dimension duly taken into account?</li> </ul>	ople?
Strongths	Weaknesses
By using a gradual approach that focussed on early acghievement and slowly brought up the children to express common needs and ideals, the project managed to find areas where some form of parity was achieved. To be underlined, a trainer was an adult but himself a person with an intellectual disability, showing that there was a path ahead within the community for the children, to become full members of society.	Weaknesses
Assessment of the continuity  - Are there any plans to follow up this project, and if so, how?  - How do you assess the ability of the project to continue once	
	Westmanne
Strengths  The project was aimed from the start to lay the basis for further lasting work. The plans are ready to be carried out and national suthorities have shown support. Also the promoter, Lumos, has shown commitment to continuing their support.	Weaknesses
Lessons learned and dissemination o	f results
Assessment of the outcomes and lessons learned	
- How do you assess the impact of the project, in particular, or	its target groups?
Strengths	Weaknesses
it's a turn-around, both in terms of child self-confidence and in terms of acceptance from those around them.	

### Assessment of the evaluation of the action

- How do you assess the relevance of the results (if described by the beneficiary)

Strengths	Weaknesses
This is described by the evaluator. The results are very important and the children and parents themselves have been able to steer the project towards their own needs and thus give it a from-the-bottom component which is essential.	
Assessment of the news/success/best practices	
the high profile of the meetings and the fact that children express	sed themselves made for visibility.
Assessment of the dissemination of findings	
Assessment of the dissemination of findings  - How do you assess the quality of the project in terms of the

<ul> <li>Were they actively distributed to targeted audiences?</li> </ul>	·	

# Information / promotional material / website

Perfect job

#### Assessment of the information / promotional material / website

- Was the information on the project widely disseminated (scope, availability in different languages)?
- Please pay attention whether information and promotional material was produced and distributed in an accessible easy-to-read language for people with disabilities disabled people (mainstreaming of disability issues)
- Please pay attention to possible discrepancies between the number of planned and delivered outputs.

Strengths	Weaknesses	
Yes, also to be underlined, thisproject gave much space		
to local languages (it had to as these are children with		
intellectual disabilities)		

Note: To consult the final technical implementation report corresponding with the assessment please access to Defis Evaluations

24/09/2013 11:59 Page 5 of 7

## Training / mutual learning Assessment of the training / mutual learning - How do you assess the relationship between the number of outputs and the project's total costs? - Were surveys carried out for each event to measure satisfaction? - Please pay attention to possible discrepancies between the number of planned and delivered outputs. Strengths Weaknesses again excellent value for money yes, see above Other information and communication events Assessment of other information and communication events - How do you assess the relationship between the number of outputs and the project's total costs? - Were surveys carried out for each event to measure satisfaction? - Please pay attention to possible discrepancies between the number of planned and delivered outputs. Strengths Weaknesses very good value yes **EXECUTIVE SUMMARY** Assessment of the executive summary - Is it of a good quality? Should it be published on the Europa website? (Please note that in the case of Progress-funded projects, all executive summaries need to be published on the Europa website) Strengths Weaknesses The summary explains shortly and concretely what the project did and how it will generate future (work and) results CONCLUSION Please provide an overall assessment This is my best project. It pursued an important target very well in the line of of this project the SIP policy orientation. It tackled a problem that many felt impossible to solve and has laid the basis for reform driven from the bottom, a bottom that - How do you assess the cost-effectiveness of the few believed could drive change. It has shown that involving actively children with disabilities is possible and yields results. - Is the overall quality of the final report The rest of the project, the action plan, the evaluation tool, the dissemination satisfactory? strategy, while very well done, is of lesser importance. However, these are Any comments or other information which essential component in a plan to start on the way to deinstitutionalise these may be relevant for future applications by the children and have them grow into full members of society. applicant?
