Subject: Kind request for a meeting regarding labelling (Front of Pack and Sustainable Labelling)

Dear [REDACTED],

We had the pleasure to meet several times in the past with regards to alcohol labelling. In May (after 10 years) I have left Eurocare (European Alcohol Policy Alliance) and now I am working for a [consultancy](#) but also on health topics.

I am writing to you on behalf of our client [Nomad Foods](#) (EU Transparency Reg: [314891743101-96](#)) Nomad Foods is Europe's largest frozen food company with brands including Birds Eye, Findus, Goodfella's and Green Cuisine. It operates across 14 major European markets, with revenues of €2.5bn and employs 4,500 people. Nomad Foods is the third largest branded frozen food company in the world. More information attached.

Nomad Food is dedicated to help consumers make healthier food choices. In this context we are advocating for introduction of simplified nutrition information on the front of food packages. Nomad aims to serve the world with better food and food which is also better for the planet. About 90% of its portfolio qualifies as healthier meal choices and this is being increased. About 40% of the goods, Nomad Foods purchases annually by volume are vegetables.

Nomad Food has followed the EU political agenda with regards to the topic of labelling and most recent reports of an eco-score. Nomad Food believes that better labelling will ensure consumers make informed, healthier, and more sustainable food choices.

Given the ongoing discussions on the topic in Europe but also other markets we **would greatly appreciate the opportunity to discuss our position via a conference call in the coming weeks.**

I remain at your disposal if you should have any questions and look forward to hearing from you.

With best wishes,
