Hello [REDACTED],  
Sure, with pleasure. Next week might be tricky though as I will be travelling for a seminar. If ok with you Isabelle can find a slot the week after  
All the best  
Filomena

**Subject:** Meeting: New plans on platform contributions to telecoms infrastructure

Dear Filomena,

I hope all is well on your side and you have had a chance to relax a bit after the stressful final phase of the DSA negotiations.

We have taken note with interest of new plans in the Commission to try and re-balance financial contributions to the development of European telecoms infrastructure which would have an impact on the digital economy, too.

This sounds to fall squarely into EDRi's mission and we, EDRi [REDACTED] of [epicenter.works](https://epicenter.works), [REDACTED] (here in CC) and I would be very interested to learn more about these plans and how civil society can contribute best.

Would you be available for a quick video call some time next week?

Thanks a lot in advance!

[REDACTED]
