Subject: Hello, Thank you again, and new article on ENDS from Japan
Attachments: Anal Sci 2013_1219.pdf

Dear All,

Warm greetings from a very foggy Geneva. Trust all of you have gotten back home safely. To reiterate, thanks to all of you for a very successful meeting in Rio. Without a doubt, we are all forever grateful to [REDACTED] and ANVISA for the generosity and warm hospitality.

In addition, I am writing because we would like to share a recently released study on ENDS from the Japanese National Institute of Public Health, one of the key TobLabNet members. I have cc'd the author, [REDACTED] should you have questions for him about the study. Thanks, [REDACTED] for sharing!

All the best,

[REDACTED]

P.s: I am waiting for [REDACTED] to send us a copy of the group picture. Hint. ;)
