Total:			2,400,000		2,160,000	

## Abstract:

The InfoMigrants.net project's objective is to facilitate access to relevant and accurate news and information in Arabic, French and English to migrants and refugees from Middle-East, Sub-Saharan Africa, Afghanistan and Pakistan on one unique platform, free and accessible worldwide, in order to fight against erroneous information passed on by human traffickers.

France Médias Monde (FMM), Deutsche Welle (DW) and ANSA will provide the following news and information:

- Production on social networks with specific articles and reports from the field from The Observers of FMM in order to create a network of "migration observers" who may have already made the trip or are based at different transit points: Feedback and exchange of experiences through a participatory space of dialogue on social networks (Facebook, Twitter, etc) managed by journalists/community managers to verify the information;
- General information and news (with countries tags) and specific information and news (migrants tags) produced by FMM, DW and ANSA: Curating, decrypting and making available all possible information via our networks of journalists based around the world, other media organizations, civil society sources, institutional sources, etc. and producing dedicated and tailor-made journalistic content available on the portal ;
- Link to EU, NGO's and other institutional networks who make available information about laws, administrative procedures, medical care, etc.

FMM, DW and ANSA international networks and audiences will facilitate the visibility and accessibility of the project to the target groups.

## Evaluation Summary Report

### Evaluation Result

**Total score: 79.50 (Threshold: 65)**
