References	
Issues raised & follow-up	<p>EVP Šefčovič explained the key priorities of the European Union for the Global Plastics Treaty negotiations and outcome, in particular those that regard limiting the production of primary plastic polymers, safe and circular product design, mandatory recycled content obligations and bans on single-use plastic products. EVP Šefčovič expressed his hope that the producers would share these goals and show leadership and ambition to help ensure a meaningful Treaty. Stakeholders agreed with the importance of most points, but would not share the same understanding on the limiting of primary plastic polymers and addressing hazardous chemicals.</p>
