1. INTRODUCTION

1.1. Legal framework of Frontex

Frontex is an essential instrument of the European Union (EU) in the gradual establishment of the Integrated Border Management (IBM) system. It has been established with an aim to improve the IBM system and it facilitates and renders more effective the application of existing and future EU measures relating to it. However, the responsibility for the control and surveillance of external borders lies entirely with the EU Member States¹.

Frontex was established by the Council Regulation (EC) No 2007/2004 of 26 October 2004² on the basis of the provisions of the Treaty on the Functioning of the European Union (TFEU) establishing an area of freedom, security and justice³. In this area the free movement of persons is ensured by abolishing border control at internal borders between the EU Member States. The abolishment of internal border control requires high and uniform levels of control at the EU external borders. Frontex was thus established to improve and facilitate that task. The legal basis, objectives, tasks and responsibilities of Frontex are formulated in the Frontex Regulation and in its operational coordinated activities Frontex is subject to EU law.

1.2. Fundamental Rights in Frontex activities

1.2.1. Obligations of Frontex

Frontex is obliged to fulfil its tasks in full compliance with the relevant EU law, including the Charter of Fundamental Rights, the relevant international law, including the Convention Relating to the Status of Refugees from 1951, the respect for fundamental rights, in particular the access to international protection, and the compliance with the principle of non-refoulement, and taking into account the reports of the Consultative Forum.

The Frontex Regulation requires Frontex to put in place an effective mechanism to monitor the respect for fundamental rights in all its activities. One of the steps to fulfil this task was to develop a Frontex Code of Conduct applicable to all persons participating in Frontex activities. The Frontex Code of Conduct (inserted under chapter 2 of this Handbook) lays down procedures intended to guarantee the principles of the rule of law and the respect for and promotion of fundamental rights with particular focus on unaccompanied minors and other vulnerable persons, as well as on persons seeking international protection, including the obligation of referral to national authorities competent for receiving asylum requests. Pursuant to the provisions of the Frontex Regulation, a Fundamental Rights Officer is appointed to assist the mechanism of monitoring the fundamental rights issues in the Frontex activities.

As regards training activities, Frontex is obliged to take the necessary initiatives to ensure that all border guards and other personnel of the Member States who participate in the European Border Guard Teams, as well as Frontex staff members, have received, prior to their participation in operational activities, a training in relevant EU and international law, including fundamental rights and access to international protection and guidelines for the purpose of identifying persons in need of protection and directing them towards the appropriate authorities and facilities.

Furthermore and pursuant to the provisions of the Frontex Regulation, Frontex has the obligation to suspend or terminate its operational activity in case of serious or persistent violations of fundamental rights or international protection obligations

Reg. No 6/99

For the purposes of the present document, the term "Member State" includes also the States participating in the relevant development of the Schengen acquis in the meaning of the Treaty on the Functioning of the European Union and its Protocol (No 19) on the Schengen acquis integrated into the framework of the European Union.

² Council Regulation (EC) No 2007/2004 of 26 October 2004, published in OJ L 349, 25.11.2004, as last amended by Regulation (EU) No 1168/2011 of 25 October 2011 (published in OJ L 304, 22.11.2011, p. 1).

³ Articles 74 and 77 (2) (b) and (d) of the Treaty on the Functioning of the European Union.

1.2.2. Obligations of all persons involved in Frontex activities

All persons involved in Frontex activities are obliged to maintain the highest standards of integrity, ethical conduct, professionalism and respect for fundamental rights. They are expected to meet obligations imposed upon them by the provisions stated in the present Operational Plan and are obliged to comply with the rules of their mandates. While taking part in activities coordinated by Frontex they are obliged to comply with European law, international law, fundamental rights and national law of the host Member State. Furthermore, the home Member State of each border guard shall provide for appropriate disciplinary or other measures in accordance with its national law in case of violations of fundamental rights or international protection obligations in the course of an operational activity.

All persons involved in Frontex activities are to act responsibly and proportionately to the current operational objectives. While performing their duties they shall not discriminate against persons on grounds of sex, race or ethnic origin, religion, belief, age or sexual orientation. They are expected to treat every person with courtesy, respect and due consideration for the nature of any legitimate activity in which they are engaged. They are obliged to report all observations regarding violations of fundamental rights via the appropriate reporting channel. They shall, previously to their engagement in the JO, receive appropriate training (including on fundamental rights) provided by national authorities responsible for their deployment or by Frontex.

1.3. Operational Plan

The Operational Plan has to be agreed with the authorities of the host Member State, in consultation with the authorities of the home Member States participating in the joint operation coordinated by Frontex. It covers all necessary elements for a proper and timely organization of the joint operation coordinated by Frontex.

The Operational Plan is composed of the Main part, Annexes and Handbook to the Operational Plan. The Main part, its Annexes and the Handbook are an integral part of the Operational Plan, having the same importance and legal binding character.

The Main part and Annexes of the Operational Plan contain detailed and specific information related to the particular joint operation, while Handbook to the Operational Plan encloses operational information applicable to all joint maritime operations. Annexes and Handbook complement the Main part of the Operational Plan by providing complete and comprehensive description of the implementation of the joint operation.

The Main part and Annexes of Operational Plan are marked as "Limited" without prejudice to the public right of access to documents as laid down in Regulation (EC) 1049/2001 of the European Parliament and of the Council of 30 May 2001, regarding public access to European Parliament, Council and Commission documents, while the Handbook to the Operational Plan has no classification mark indicated.

Operational Plan shall only be made available to the authorities referred in each MS as "Law Enforcement". This document shall be made available to other interested parties only on a need-to-know basis and in accordance with European and national rules on the protection of sensitive/classified information. Such dissemination of this document shall be done only on a case-by-case basis.

This Operational Plan may be revised at any time in order to correspond with the new operational developments. In accordance with Article 3a (2) of Frontex Regulation, any amendments to or adaptations of the Operational Plan require the agreement of the Frontex Executive Director and the host MS. A copy of the amended Operational Plan shall be immediately distributed by Frontex to the participating MS via FOSS.

3. OPERATIONAL CONCEPT

3.1. General description

The responsibility for the control of the external borders remains with the Host MS. Frontex facilitates and renders more effective the application of existing EU measures related to the management of external borders, by ensuring the coordination of MS actions in the implementation of those measures, thereby contributing to an efficient, high and uniform level of control on persons and surveillance of the external borders of the MS.

All the activities shall be executed based on EU law, the relevant national legislation and existing provisions of international law, both customary and conventional and in close cooperation with the involved authorities of the MS, in particular the host MS.

All the activities are coordinated by the ICC, without prejudice to the privileges of the national operational chain of command and control specific to each participating MS. It is highly important to ensure the proper communication among the participating assets, National Officials (NO) and International Coordination Centre (ICC).

In case interception turns to Search and Rescue (SAR) operational tasks need to be executed under the coordination of the responsible MRCC/MRSC/JRCC according to internationally approved SAR procedures.

Description of the Tasks and Specific Instructions to Guest Officers and Other Participants (Rules of Engagement) are defined in the respective Annex of the Operational Plan.

3.2. Information on application of relevant jurisdiction in the operational area where the joint operation takes place

The following international legal framework shall apply:

- Universal Declaration of Human Rights, 1948
- Charter of Fundamental Rights of the European Union, 2000
- European Convention on Human Rights and Fundamental Freedoms 1950 and its Protocols
- 1951 Convention relating to the Status of Refugees and its 1967 Protocol
- United Nations Convention on the Law of the Sea, 1982
- United Nations Convention against Transnational Organized Crime and the Protocols thereto (Palermo Convention)
- International Convention for the Safety of Life at Sea, 1974
- International Convention on Maritime Search and Rescue, 1979
- International Convention on Salvage, 1989

3.3. Border surveillance

The main purpose of border surveillance is to prevent unauthorised border crossings, to counter cross-border criminality and to take measures against persons who have crossed the border illegally. A person who has crossed a border illegally and who has no right to stay on the territory of the Member State concerned shall be apprehended and made subject to return procedures as laid down in the applicable EU law⁴.

Border surveillance shall be carried out by using the MS offered technical equipment.

Reg. No 12/99

⁴ Unless a request for asylum is submitted, thus the respective procedure shall be applied

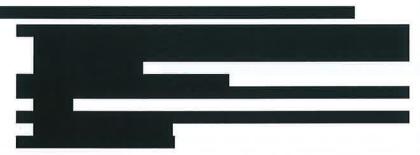

The following operational concept for the assets has to be applied:

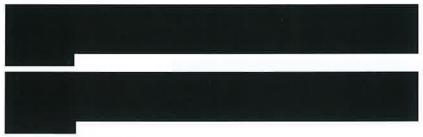

- · Aerial assets: detection / tracking / identification
- $\bullet \quad \text{Maritime assets: detections / tracking / identification / interception} \\$
- Terrestrial assets: detection / tracking / identification / interception

3.3.1. Use of participating assets

The assets of the host MS will continue to perform patrolling activities at the normal level in the operational areas and EPN zones covering their areas of jurisdiction. Besides the host MS assets, delivering normal patrolling activities, assets from the home MS and additional assets of the host MS will be used to ensure an operational response in operational areas.

The participating assets perform their tasks under the coordination of the ICC (through the NO), following the planning confirmed during the daily Joint Coordination Board (JCB) meetings.

Flexibility in the patrolling schedule is a key element for the successful implementation of the JO.

Commented [JB4]: The blanked out text contains detailed sensitive information about organisation, communication and operational activities, in particular regarding the tactics and modus operand of law enforcement forces.

Disclosure of such information would harm the performance of future operational tasks taking place at the related area and would facilitate performance of illegal activities such as human trafficking and drug smuggling, therefore it would harm the public interest as regards public security. 7.2.9. Training Unit (TRU)

The Frontex Training Unit will support the JOU in preparing briefings in order to ensure that all deployed staff will receive the necessary knowledge regarding Fundamental Rights, access to International Protection, the fight against THB, etc.

A specific EBGT Profile training, as for Debriefing, Screening and Second-line Interview Experts already in place, will be further developed and offered exclusively for EBGT pool members in order to harmonize knowledge, skills and competences where appropriate. This will ensure, in mid and long term perspective, the promotion of Fundamental Rights under the scope of the specific EBGT job-competences (in alignment with stipulated EBGT Profiles) and will further improve the quality of operational activities under Frontex umbrella.

A constantly updated evaluation between operational activities and training is necessary in order to react immediately to latest trends of cross-border crime and to detect training gaps.

The participation in EBGT training will be documented by TRU via the OPERA system.

7.2.10. Pooled Resources Unit (PRU)

PRU develops and manages pooled experts and technical equipment of MS and supports JOU in providing resources for joint operations.

The unit assists JOU in liaising with MS and ensures that all information related to the EBGT members or technical equipment is updated in the Opera system as well as acts as the contact point for queries related to the use of the software. PRU is responsible for the timely issuance of the accreditation cards for the guest officers and participant cards for other participants which is distributed (together with the armbands) in the operational area by JOU.

The unit is one of the key actors regarding the management of the Seconded Guest Officers (SGOs) deployed to Frontex coordinated operational activities: it monitors the application of the Standard Operating Procedures governing the missions of the SGOs and ensures their coherent and consistent application at the Agency level as well as it distributes the "Deployment Guidelines" to the deployed SGOs. The initial correspondence prior to deployment of SGOs from Frontex to the respective MS is also done by the unit.

PRU is responsible for the transitional storage, allocation and overall monitoring of Frontex operational assets.

PRU maintains a tracking system allowing identification at any moment the specific location and status of particular operational equipment. The unit is responsible to maintain continuous communication with the operational team in JOU in order to collect all required information.

7.2.11.Seconded Guest Officers (SGO)

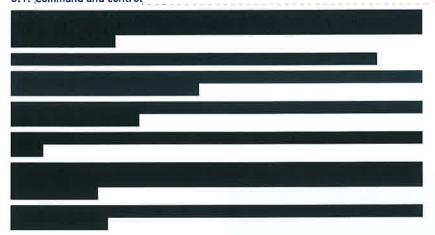

The Seconded Guest Officers (SGO) are border guards from the Member States, with the tasks and powers of the guest officers as defined in Article 10 of the Frontex Regulation and are seconded to Frontex in accordance with Articles 3b and 17 of the Frontex Regulation. Therefore the tasks, powers and roles described in the respective chapters of this Handbook are also applicable for the seconded guest officers.

The SGO are selected by Frontex and will be considered as a Frontex contribution to the European Border Guard Teams. The secondment of an SGO must not exceed six months within a period of 12 consecutive months. Equally, the secondment period may not be shorter than one month.

Commented [BW25]: The blanked out text contains detailed sensitive information about organisation, communication and operational activities, in particular regarding the tactics and modus operandi of law enforcement forces.

forces.

Disclosure of such information would harm the performance of future operational tasks taking place at the related area and would facilitate performance of illegal activities such as human trafficking and drug smuggling, therefore it would harm the public interest as regards public security. In this regard the text is not disclosed pursuant to the exception laid down in the first indent of Article 4(1)(a) of Regulation (EC) 1049/2001.

8.2. Communication

Communication flows for operational activities in the operational area are standard and channelled via the ICC. Furthermore, communication, information and reporting flow at Frontex level are channelled via the FSC and thus the line between the ICC and the FSC is an essential channel for the uniform and permanent interlinked communication for all actors involved:

8.3. Reporting

8.3.1. Incidents reporting

Reports regarding all border-related incidents that have occurred in the predefined operational areas are prepared by the local officers or experts and sent via JORA.

Reg. No 41/99

The JORA Guidelines will be stored on FOSS with the aim that all participants who gather, insert, validate or analyze any data or information contained in JORA have a common understanding and clear definitions of the data-collection attributes and values. Frontex may update the JORA Guidelines at any time with proper notification of the participants.

Specific information and guidance related to the management and use of JORA are available below (Chapter 11 of this Handbook).

8.3.2. Incident management process

Commented [JB26]: The blanked out text contains detailed sensitive information about organisation, communication and operational activities, in particular regarding the tactics and modus operand if law enforcement forces.

Disclosure of such information would harm the performance of future operational tasks taking place at the related area and would facilitate performance of illegal activities such as human trafficking and drug smuggling, therefore it would harm the public interest as regards public security. 8.3.4. Document alert and Reference Manual

Irregular migrants coming from target countries often use forged/falsified documents during passport control as well as different *modus operandi*. The forgery methods are becoming more and more professional and sophisticated. Additionally, the high level and frequency of new documents have to be taken into consideration by several authorities together with the high technology features used.

In this regard the exchange of information is crucial to fight this type of crime. The experts are requested to compile the *Reference Manual Alert Form* each time a relevant document forgery is detected. This compiled alert shall be inserted into the daily report package and later integrated into the Reference Manual, if relevant.

8.3.5. Reporting templates

All actual and tailored templates are published on FOSS on the website of the respective joint operation. In the course of the preparation phase for the JO, additional templates might be developed. In such cases participating MS will be notified and additional templates will be uploaded on FOSS.

9. FRONTEX ONE-STOP-SHOP (FOSS)

9.1. FOSS general information

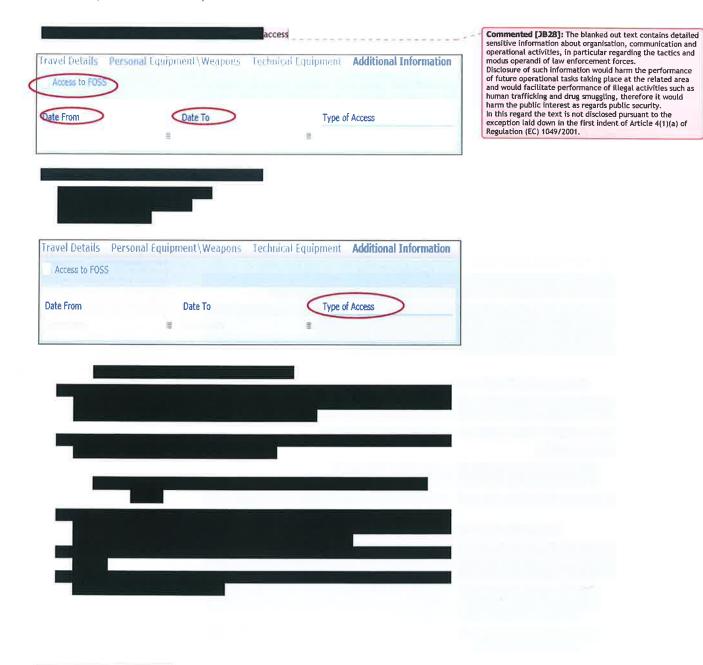

The Frontex One-Stop-Shop (FOSS) is a web-based and secure portal designed to provide situational awareness and to share operational-related information. FOSS serves as a documents repository for this information. Close-to-real-time and up-to-date information is available to multiple users, simultaneously. The information shared in FOSS is organized and clustered in specific areas, according to the relevant topic, and is related to the core business of Frontex: co-operation and operational coordination between Member States in the field of border security. It is available 24/7for its authorized users.

During the joint operation FOSS will be the main platform used for sharing operational-related information between all parties involved. This information will be accessible according to defined standards and amongst users designated respectively for each joint operation.

Access to the FOSS portal is limited to internal and external members of the Frontex-related community: MS representatives, National Frontex Points of Contact, national authorities, Frontex staff, deployed border guard experts, and other authorised parties with a business need in Frontex activities.

Reg. No 43/99

⁹ Start and end date can be freely decided, but we recommend requesting FOSS access before the start of the deployment for the Guest Officer (for example 30 days in advance), it is also recommended to allow access to operational documents available in FOSS also 30 days after the end of the deployment of the Guest Officer.

10, COMMUNICATION WITH THE PRESS

10.1. Introduction

All Frontex activities are financed from public funds (EU budget) therefore it is Frontex' obligation to maintain a high level of transparency and openness in its activities. Operations held at the external borders experiencing a high level of migratory pressure often draw a large numbers of international journalists.

It is Frontex policy to facilitate media coverage of all its activities, including operations. Consequently the press office facilitates media visits to the operational areas and organises media interviews with officers deployed by Frontex.

All press visits are closely coordinated with host MS authorities and are carried out according to procedures defined in the Press Communication Rules in the sub-chapter below.

Press rules may vary depending on the operation; therefore the differences will be reflected in the main part of the Operational Plan.

Openness cannot hinder or jeopardise operational activities, therefore several general rules apply.

No information should be released to the media prior to the beginning of the operation.

Operational details, such as operational area, details of technical equipment deployed, shift schedule etc. are considered sensitive information and are not to be shared with the media.

All participants in the joint operation are obliged to contact the Frontex press office before giving an interview.

10.2. Press communication rules

10.2.1. General

The communication strategy regarding the Frontex mission and activities in general is under the auspices of the Agency.

In order not to jeopardise the outcome of the operation, no information about the operation should be released to the public prior to its beginning. National authorities deploying border guards to the Joint Operation should also limit their public statements to the general objectives of the operation, numbers and profiles of experts.

Press Offices of Frontex and the host country press office represented by the Dedicated Press Officer are entirely responsible for coordination of all matters related to interview requests, press visits to the operational area and any other press-related matters related to the Joint Operation.

Press lines regarding joint border control operational issues and actions as well as specific incidents that might occur, are agreed by Frontex and the host country press office represented by the Dedicated Press Officer.

10.2.2. Tasks of press offices in the context of Joint Operations

Press visits to the Joint Operation will be organised by the host MS authorities in cooperation with the Frontex Press Office.

- · Being the point of contact for national media.
- · Arranging filming opportunities in the operational area
- Drafting and distributing press releases, statements and other communications in close cooperation with Frontex.

10.2.3. Management of Press Requests

Given that journalists need to obtain authorisation from the host MS authorities to visit the operational area, the following procedures must be followed:

- Individual and on-the-spot media requests must be directed to the Frontex Press Office and the Dedicated Press Officer in the host MS electronically.
- The Frontex Press Office and the Dedicated Press Officer from the host MS will inform each other about media requests on a regular basis.
- The Frontex Press Office will coordinate the flow of international press requests received, collect information about their needs and direct requests to the Dedicated Press Officer in the host MS.
- The Dedicated Press Officer will process the necessary authorisations, coordinate the flow of national press requests received and inform the Frontex Press Office about the planned presence of the media in the operational area and provide them with necessary assistance on the ground.
- The Dedicated Press Officer will process the necessary authorisations for participation of
 journalists in patrols and visits to restricted operational areas. The Dedicated Press Officer will
 inform the interested parties and the Frontex Press Office about the decision.
- The Dedicated Press Officer will host media representatives. Media representatives will be asked
 to present their press credentials before participating in any activity and to sign a written
 statement that the host MS or other involved countries' authorities will not bear any responsibility
 should anything happen to the media representatives and/or their equipment.

10.2.4. Specific guidelines for participating officers if approached by the media:

Participants are allowed to talk to the media only within the limits set by specific guidelines indicated below.

12.2. Definition

12.2.1. Serious Incident

SI is an event or occurrence, natural or caused by human action, which may affect, or be relevant to, the Frontex mission, its obligation, image, the safety and security of participants in activities coordinated or led by Frontex, or any combination thereof. 12.2.2. Serious Incident Report (SIR)

SIR almed at informing about the occurrence of a SI as defined in the "Frontex Serious Incident Catalogue" (12.9.). The production and timely dissemination of a SIR contribute to improve situational awareness and increase the reaction capabilities of Frontex related to incidents occurred in the frame of activities coordinated or led by Frontex. The issuance of a SIR is the first internal step for possible follow-up measures and eventual official statements to be taken by Frontex Senior Management if needed.

13. ARRANGEMENTS OF DEPLOYED RESOURCES

13.1. Operational Resources Management System (OPERA)

https://fis.frontex.europa.eu/opera/

The Operational resources management system (Opera) is an integrated web-based system for the management of the operational resources pooled and deployed in Frontex coordinated activities. Information related to the availability and deployment of the resources is stored in the application and is available for the generation of statistics, and for automated reporting.

The main functions of the Opera system are the following:

- To manage contributions to the HR and TE Pools: personal data (including deployment history, profiles, participation in Frontex training, etc) of officers nominated to the HR Pools is stored in the HR Pools database. MS nominate officers and update the information in real time by using Opera. The content is fully searchable and available for the other functionalities of the application. The same applies to the TE Pool database (CRATE).
- To manage and allocate resources to joint operations and other activities by:
 - Creating and storing operational details such as duration, location, type of operation, operational needs in terms of HR and TE;
 - o Supporting the generation of Frontex requests for availability of resources to the MS;
 - Managing the contribution and allocation of MS resources to a given Frontex coordinated activity;
 - o Managing the Running Expenses of Means templates;
 - Monitoring and registering the deployed resources.
- To issue secure accreditation documents: information on the allocation of HR gives the Operational Team the possibility of easily creating requests for accreditation documents for joint operation.
 Opera foresees also the possibility of sending a PDF document directly to the NFPoC when the document is created.
- To generate reports: opera gives Frontex and the MS the possibility of generating different types
 of report in a fully automated way such as composition and statistics on Pools, overviews on
 deployments and registration for officers, Key Performance Indicators, reports on the deployed
 resources in a given operation, other customisable reports.

Users, according to the instructions received during the Opera Training and procedures discussed and agreed in the Opera workshops, input information concerning the available/deployed resources, Running Expenses of Means related financial data, and officer registration details (necessary for issuing accreditation/participant's documents) directly through the Opera dedicated interface.

Reg., No 65/99

The previous version of the Excel-based Accreditation form is replaced by the Opera system with the following input interface:

Under "Travel Details", MS shall input information about the arrival and departure dates (including indication of approximate time of arrival), Flight details if travelling by airplane, Mean of Transportation, Route, Arrival Airport, Entry BCP/Airport and Accommodation. In the event of Accommodation being provided by the host MS and being unknown at the time of registration, MS shall indicate this in the Accommodation box by the text "accommodation provided by Host MS".

The Expiry date of the Accreditation Document is automatically set as the date of departure from the operational area. In the event of any particular need (e.g. transportation by car, etc) MS can manually extend the date in order to have the Accreditation Document valid until the arrival of the officer in his/her MS.

Under "Personal Equipment\Weapons", MS shall indicate if the officer is travelling to the operational area carrying weapons or not. If yes, MS shall also register the weapon and indicate the amount of ammunition. This field is mandatory.

Commented [JB40]: The blanked out text contains detailed sensitive information about organisation, communication and operational activities, in particular regarding the tactics and modus operand of law enforcement forces.
Disclosure of such information would harm the performance of future operational tasks taking place at the related area and would facilitate performance of illegal activities such as human trafficking and drug smuggling, therefore it would harm the public interest as regards public security, in this regard the text is not disclosed pursuant to the exception laid down in the first indent of Article 4(1)(a) of Regulation (EC) 1049/2001.

Reg. No 67/99

Under "Technical Equipment", MS shall indicate if the deployed officer is linked to a specific item of Technical Equipment requested and deployed through Opera (e.g. helicopter, vessel, etc), or if he is carrying with him/her any other item of Technical Equipment.

Commented [JB41]: The blanked out text contains detailed sensitive information about organisation, communication and operational activities, in particular regarding the tactics and modus operandi of law enforcement forces.
Disclosure of such information would harm the performance of future operational tasks taking place at the related area and would facilitate performance of illegal activities such as human trafficking and drug sruggling, therefore it would harm the public interest as regards public security. In this regard the text is not disclosed pursuant to the exception laid down in the first indent of Article 4(1)(a) of Regulation (EC) 1049/2001.

Under Additional Information, MS shall indicate if the officer shall have access to FOSS, and the type of access requested (including duration). More information about FOSS is provided in chapter 9. MS shall also indicate the Daily Gross Wage and Daily Subsistence Allowances of the deployed officer for that specific operation.

13.2. Technical equipment deployed by Member States

Technical equipment deployed by the MS in the operational areas to foster the border control activities

preliminary agreed and confirmed by Frontex and the MS.

The technical equipment deployed by the MS can form a part of the overall minimum number of technical equipment (OMNTE) or can be considered as additional technical equipment (beyond OMNTE). The OMNTE is identified by Frontex based on the risk analysis and the operational needs and it is foreseen to ensure sufficient operational response within Frontex coordinated joint operations. The additional technical equipment will supplement OMNTE, in case that any operational needs occur.

13.3. Management of the operational assets 13 deployed by Frontex

PRU and JOU deal with the distribution and retrieval of operational assets in the operational areas, according to the procedures in place. The EBGT members / representatives of the national authorities receive operational assets based on a pre-conducted needs assessment and are responsible for the maintenance in good conditions of the equipment while in their possession.

The EBGT members / representatives of the national authorities having received an operational equipment item have the obligation to return the item to the Frontex representative in charge with the distribution / retrieval of the operational assets, according to the conditions laid down in the handover forms.

Commented [BW42]: The blanked out text contains detailed sensitive information about organisation, communication and operational activities, in particular regarding the tactics and modus operandi of law enforcement forces.

Disclosure of such information would harm the performance of future operational tasks taking place at the related area and would facilitate performance of illegal activities such as human trafficking and drug smuggling, therefore it would harm the public interest as regards public security. In this regard the text is not disclosed pursuant to the exception laid down in the first indent of Article 4(1)(a) of Regulation (EC) 1049/2001.

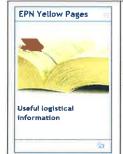

Reg. No 68/99

¹³ Frontex owned assets

In case the operational equipment is being damaged / misplaced / stolen while under the responsibility of an EBGT member / representative of a national authority, the person to whom the equipment was handed over has the obligation to immediately inform the Operational Team about the occurrence.

13.4. EPN Yellow Pages

European Patrols Network (EPN) Yellow Pages is a web-based and secure information service available 24/7 for authorized users on Frontex One Stop Shop (FOSS) platform.

14. FINANCIAL PROVISIONS

In accordance with the decision of the Frontex Executive Director, Frontex will co-finance the joint operation. Frontex will reimburse eligible costs incurred by participating MS authorities in relation to deployments of experts and technical equipment provided that the Framework Partnership Agreement is in place.

The host MS is also eligible for co-financing the eligible costs for additional means/activities and staff deployed in accordance with the Strategic Guidelines for financing of Frontex operational activities.

Frontex will be responsible for the preparation of all necessary financial commitments and the preparation of the legal commitments. Funds are allocated by means of issuing Specific Financing Decision with Estimated Budget and calculation for Running Expenses of Means (if applicable). The Estimated Budget and REM are to be submitted by the partner authority.

Once the SFD is issued by Frontex, the MS authority is obliged to send back Acknowledgement of Receipt and is entitled to request pre-financing up to 50% of SFD budget. Frontex strongly recommends partner authorities to claim the advance payment.

In accordance with Article II.17 of the Framework Partnership Agreement, payment of the balance, which may not be repeated, is made after the end of the operational activity on the basis of eligible costs actually incurred in carrying out the operational activity. The request for final payment shall be submitted within 75 days after the end of the joint operation.

Accordingly, Frontex will co-finance the deployments of Third Country observers within the joint operation, provided that Third Country has the Working Arrangement with Frontex. For the purpose of legal and financial commitment, Frontex and the Third Country partner authority mutually sign the Grant Agreement along with the Estimated Budget and General Conditions. Further co-financing details, eligible costs and payment rules for Grant Agreements are analogical to the SFD scheme for EU MS (if applicable).

Commented [JB49]: The blanked out text contains detailed sensitive information about organisation, communication and operational activities, in particular regarding the tactics and modus operand of law enforcement forces.

Disclosure of such information would harm the performance of future operational tasks taking place at the related area and would facilitate performance of illegal activities such as human trafficking and drug smuggling, therefore it would harm the public interest as regards public security. In this regard the text is not disclosed pursuant to the exception laid down in the first indent of Article 4(1)(a) of Regulation (EC) 1049/2001.
