Subject: SV: Workshop at Svensk Handel 14 April

Dear Maria,

Yes, the roundtable is held in Swedish.

Regarding the topics to cover, we would certainly be interested to hear about the upcoming trade strategy and some of its main components (as we have understood them):

- The bilateral trade agenda, TTIP and FTA negotiations. In particular, it would be interesting to hear your view on (or to simply discuss) how future agreements should fit the modern trading environment with global supply chains and increasing e-commerce internationalization.
- Sustainable development and what the Commission and business can do together to promote sustainable sourcing supply chains.
- Relations with strategic partners and other important trading partners, in particular China and Norway would be interesting in this regard.

I understand that this could certainly be too much to cover in just a few minutes, but I hope this gives you a better view of a few topics of interest for the commerce sector.

Please let me know if you need any clarifications.

Best regards,

And, will the roundtable be held in Swedish or English?
Swedish, I assume?
