### Meeting Report

#### TTIP - Toyota European WC - July 1

FYI

I gave this morning a TTIP presentation at Toyota Europe's European Works Council in Zaventem for an audience of employee representatives/trade unions.

Toyota EWC also invited a trade union representative from IG Metal Germany, [Art. 4.1(b)] [Art. 4.1(b)]. IG Metal is the dominant metalworkers' union in Germany. Intervening representatives during the debate/Q&A came mostly from UK and DE.

The debate was very constructive, even on topics such as ISDS and ILO core labour standards; participants understood well the interests of the car sector under TTIP.

Mr [Art. 4.1(b)] referred to a statement IGB would have made in Berlin, according to which the US would "[Art. 4.1(a) third indent]"; I noted that we want to be ambitious on sustainability.

Best regards
