Subject: Report meeting with AREVA - 24/10/2013

Participants:

[ART. 4.1b], [ART. 4.1b] (AREVA)

Damien Levie, Esther Nieto Hernandez (TRADE)

Report:

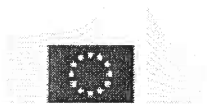

Short introductory meeting, where AREVA provided key elements of their US goods & services activities, in particular in the nuclear and renewable energy areas:

- 5000 employees
- 35 sites
- North America = 19% AREVA's turnover
- Present in North Carolina, Virginia, Washington, Maryland, Tennessee and Connecticut
- AREVA provides services to 30% of nuclear
- It is the first provider of products and services on renewables (integrated offer capacity)

AREVA interested in understanding overall state of play of the negotiations, the EU objectives in the areas of energy, regulatory convergence and public procurement. On the latter, AREVA will provide further practical insight on their operations in the US, including in particular at State level and in the utilities sector. A follow-up meeting with the procurement negotiators was suggested to discuss further their interests and experiences in this area
