Dear Ms. Coman,

As you are aware, the Commission has set up an independent panel of experts from the Member States, which will report to the Commission on whether the Romanian draft legislative package on children's rights and adoption complies with international standards laid down in the UN Convention on the Right of the Child and the European Convention on Human Rights.

The group is currently studying the draft legislative pack, and has expressed their wish to have some reference material (see list attached).

I would be obliged if your services could provide these documents to [REDACTED] of the Romania Team, with a translation into English.

Yours sincerely,

[REDACTED]
