**Subject:** Request for meeting with the European Alliance to Save Energy (EU-ASE)

Dear Commissioner Hogan,  
on behalf of the European Alliance to Save Energy (EU-ASE) and its President, [REDACTED], I would like to kindly ask for a bilateral meeting with you, if possible, before the summer break.

This is the year of delivery of the Energy Union and key EU legislations are going to be proposed under the lead of Vice-President Sefcovic and Commissioner Arias Canete.

However, energy efficiency does not fall only under the energy & climate policy spectrum: it has multiple collective benefits and potentials with social, industrial, employment, health, decarbonization, financial implications - which are mostly overlooked at the moment due to a lack of awareness.

The reason why the progressive business community would like to meet you is to present you an holistic European vision for the development and acceleration of energy efficiency investments.

This is a sustainable growth agenda for the European renaissance which will require your support.

EU-ASE delegation will be composed by the President and senior business representatives from Danfoss, Ingersoll Rand, Kingspan, Knauf Insulation, Philips, Schneider Electric, Siemens and Veolia.

I am looking forward to hearing from you.

### *Creating an energy-efficient Europe*

*[EU-ASE](#) was established in December 2010 by some of Europe's leading multinational companies. The Alliance creates a platform from which our companies (1E, Danfoss, Ingersoll Rand, Kingspan, Knauf Insulation, Opower, Philips, Schneider Electric, Siemens and Veolia) can join with politicians and thought leaders to ensure the voice of energy efficiency is heard from across the business and political community. EU-ASE members have operations across the 28 Member States of the European Union, employ over 210.000 people in Europe and have an aggregated annual turnover of €90 billion.*
