

For the Attention of the office of: Mr. Maroš Šefčovič, *Vice-President and Commissioner*
- **Energy Union, European Commission**

Dear Maroš,

Please find attached below the official invitation for you to speak on behalf of Energy Union at the eighth annual European Power Systems Strategy, Design and Technology Summit (**Power Europe 2016**).

Rest assured that we are on hand to assist in any regard to facilitate the inclusion of you or another suitable representative from your department at Energy Union on the 2016 Power Europe conference programme.

My very best regards,

Programme Manager

Power Europe 2016

Dear Maroš,

As the Programme Manager for the **2016 Power Europe Summit** I am delighted to invite you to be a VIP speaker at the conference taking place between the 28th to 30th of November 2016 at the Hilton Hotel in Vienna - Austria.

The Summit invites all power sector participants from up and down stream power utilities, together with equipment manufacturers, technology innovators and energy retailers to examine and promote new methods to improve efficiency, adapt to and leverage new technological advances and increase profitability rather than decline in the face of continuing change in the way that power is generated, delivered and utilized.

Given your respected role at Energy Union, European Commission we would be honoured for you to join the speaker panel to address the following topic (for approximately 30 minutes) at Power Europe 2016 namely:

The Energy Union: Integration of the European Energy Markets

- Securing affordable and climate-friendly energy and maintaining global competitiveness in the energy sector
- Maintaining a balance between security of energy supply and environmental considerations/policies
- Energy saving and energy efficiency: how to mitigate the big demands for power with minimal impact to the environment?
- The realistic approach to creating a single energy market, considering the complicated political relations of the Member States
- Presenting the progress made in the transition to a low-carbon, secure and competitive economy since the adoption of the Energy Union Framework Strategy

Invited speaker: Maroš Šefčovič, *Vice-President and Commissioner* - **Energy Union, European Commission**

Naturally the above is our suggestion and we would welcome any alterations that you may deem necessary.

As a VIP Speaker You Will be Entitled to the Following Privileges:

1. Complimentary attendance to the full 3-day summit, including attendance to all networking and lunch, and dinner activities that are part of the event programme.
 2. Featuring your session in all the summit materials that will be marketed to the European and global power utilities market thereby enhancing your organisation's profile, expertise and achievements within the sector.
 3. Complimentary access to the Power Europe presentation archive, enabling your department and organisation to benefit from the actionable intelligence shared at the summit.
 4. Dedicated conference staff to assist you with anything you may require in your preparation to attend or onsite at the summit.
-

For further information please see attached the previous (2015) Power Europe Onsite Brochure and a list of this year's speakers and programme contributors. Furthermore, please do not hesitate to get in touch with us if you have any remaining questions regarding the event.

We would highly appreciate if your office could ensure that we receive your response to this invitation indicating your intention to participate on behalf of Energy Union within the coming two weeks.

Looking forward to the possibility of welcoming you and the Energy Union to Vienna this November.

My very best regards,
