ATTN Mr. Maroš Šefčovič,  
Vice President of the European Commission for Energy Union

Dear Mr. Maroš Šefčovič,

energynomics.ro is honored to invite you to be an active part the most important energy event of this summer - **Energy Strategy Summit**, at Snagov Palace, near Bucharest, an initiative where we would be honored to have you as a keynote speaker.

For one day, local authorities and leading energy industry representatives will discuss the problems of the sector and the means to influence its future as they can be drafted in a single document - Romanian National Energy Strategy.

We invite you to display the your extensive expertise and perspective in Energy Union project, by presenting your views on how a document such as a national energy strategy should be crafted.

You will have the opportunity to deliver a short speech during the first thematic panel of the day [**I. Romania's National Energy Strategy - Focus on Energy Security in the Context of the EU Energy Union**], in front of a selected audience of decision makers in Romania's energy sector.

Please confirm your interest in participating as a keynote speaker to the Energy Strategy Summit, at Snagov Palace, before **April 27th**, as we intend to craft the speakers list no later than **April 29th**.

We will be happy to assist you with all the rest, be it logistics, transportation or anything else!

## About Energy Strategy Summit

For over 85 years, Snagov Palace was the place where the council of ministers, altogether with the president Nicolae Ceausescu, was gathering for crucial decisions on politics and economy.

Businessmans and ministers, ambassadors and royal heads enjoyed the exquisite scenery of the palace...now ready to welcome the present day leaders of Romania.

Both the palace and the outbuildings host, political forums, meetings of employees of multinationals, Snagov Palace is now the luxury place for crucial decision to be made.

On June 2, EU representatives and ministers, ambassadors and captains of industry are gathering once again at the Snagov Palace, for the most substantial assembly dedicated to Romanian energy in 2016: Energy Strategy Summit.
