Good morning ,

Thank you very much to Mr and you for having taken the time to meet Mr and . I would like to apologise for not having been able to attend but I was on a mission.

Following on your discussions, I would like to better understand your justification when it comes to the re-use of the money from the super-levy back to the milk sector.

I took a look at all relevant legislation: Reg 1306/2013 on financing of CAP, Reg 1308/2013 on CMO and:

- According to art. 230 of R. 1308/2013, all articles referring to milk quotas (including art.78 referring to surplus levy and in particular par. 2 of this art. referring to the obligation for MS to pay this money to EAGF) are applicable until 31/03/2015
- According to Reg 1306/2013, art.43, the sums collected from the surplus levy are “assigned revenue” (EAGF). Moreover, par.2 of the same article states that “the sums referred to in par.1 shall be paid to the Union budget and in the event of reuse, shall be used exclusively to finance EAGF or EAFRD expenditure”.

My interpretation is that the surplus levy still goes to CAP budget and can be re-used to finance EAGF or EAFRD expenditure. But maybe I a missing something, therefore I would very much appreciate if I could have your interpretation.

Thank you very much.

Kind regards,

(milk and dairy products| beef| sheep and goats| honey| breeding livestock)
