

5 YEARLY REPORT ON THE APPLICATION OF THE CONTROL REGULATION

Requested addendum

Art 2.2 Fishing Authorisations –

Number of Authorisations suspended & Number of authorisations permanently withdrawn.

As outlined in the original report already received the mechanism in IRL does not undertake a separate administrative in order that a fishing authorisation is withdrawn. Any authorisation is automatically cancelled on cancellation of the vessels fishing licence.

The numbers of licence cancellations and therefore the number of authorisations automatically suspended on a temporary basis are as follows...

2010	2011	2012	2013	2014
0	0	2	0	4

The numbers permanently withdrawn are as follows...

2010	2011	2012	2013	2014
0	0	0	0	0

Art 2.5 Automatic Identification system (AIS)

Number of fishing vessels fitted with AIS

Number of FMC's AIS capable

The matter of oversight of fitting of AIS systems onboard vessels rests with the Marine Survey Office of IRL Dept of Transport. Vessels are not issued with an AIS certificate by the MSO, so data for previous years and the numbers operating that system are not available, but the number of vessels will have been constant since AIS became mandatory for all fishing vessels from 31/05/12.

The current number of vessels fitted stands at 210.

IRL has only 1 FMC and that is AIS capable and has been since 2012

4.1 Fishing capacity

Compliance with capacity limits of fishing licences against available and assigned GT and KW's.

	2010	2011	2012	2013	2014
Fishing Capacity Ceiling	77,254GT 210,083kW	77,344GT 210,083kW	77,377GT 210,083kW	77,568GT 210,083kW	77,568GT 210,083kW
Fleet Size GT and Kw	64,581GT 185,392kW	59,566GT 182,325kW	60,342GT 186,544kW	59,515GT 181,641kW	58,980GT 179,659kW
Registered GT % Compared To GT Fishing Capacity Ceiling	84%	77%	78%	77%	76%
Registered kW% Compared To kW Fishing Capacity Ceiling	88%	87%	88%	86%	86%

Number of engine power verifications undertaken

2010	2011	2012	2013	2014
0	0	0	62	0

Numbers of infringements detected

2010	2011	2012	2013	2014
0	0	0	0	0

9.5 Weighing

Number of sampling plans for weighing on landing

2010	2011	2012	2013	2014
0	0	2	2	2

Numbers of infringements detected

2010	2011	2012	2013	2014
0	0	0	1	0

10.1 Monitoring of Producer Organisations

Number of checks accomplished

Number of infringements regarding Regulation 104/2000 detected

See Attached

10.2 Monitoring of Price and Intervention Arrangements

Number of price and intervention checks accomplished

Number of infringements detected

See Attached

12.4 Inspection resource: Surveillance Aircraft

Aircraft dedicated to fisheries control and total hours on fisheries control

2010	2011	2012	2013	2014
2	2	2	2	2
1,350hrs	1,350hrs	1,350hrs	1,350hrs	1,350hrs

% Operational hours on Fisheries Control

2010	2011	2012	2013	2014
85%	85%	85%	85%	85%

12.7 Union Inspectors

Number of Joint Deployment Plans within MS jurisdiction

2010	2011	2012	2013	2014
1	1	2	3	3

Number of infringements detected during JDP's.

2010	2011	2012	2013	2014
0	0	0	0	0

12.9 Proceedings of infringements detected in the course of inspections

Number of inspections

NAVAL SERVICE				
2010	2011	2012	2013	2014
1,684	1,313	1,329	994	936

SEA FISHERIES PROTECTION AUTHORITY				
2010	2011	2012	2013	2014
2,889	2,338	2,296	1,605	3,461

Number of infringements

2010	2011	2012	2013	2014
130	88	153	234	53

Number of proceedings transferred to Flag State

2010	2011	2012	2013	2014
