Dear [REDACTED], please see the reply from [REDACTED]

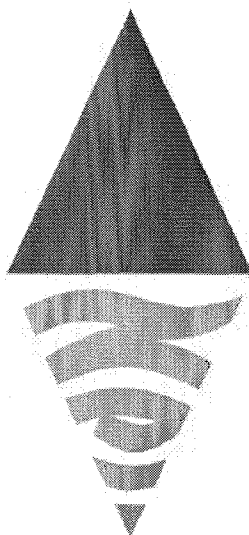

He also says that the letter of intent has been provided. Thanks for double checking this and confirm to me. We should not ask what is already available if possible.

Have a nice day,

[REDACTED]

Dear Samira Tetta,

Thanks very much for your e-mail. The fact that [REDACTED] was also proposed as an external advisor in another tender comes as a surprise, as Mr. Poort has personally firmly indicated he is exclusively working with us. The attached signed letter of intent is proof of this. This letter of intent was already submitted in our original tender, as annex to the technical proposal.

I will make sure you receive the original signed document as soon as possible.

Please do not hesitate to contact me if you have further questions.

Best regards,

[REDACTED]

ECORYS

Dear [REDACTED],

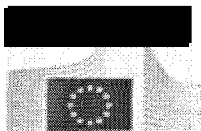

Regarding the tender submitted by Ecorys following the call for tenders MARKT/2013/110/B, we are looking at the selection criteria. The evaluation committee would like to bring to your attention the fact that Prof. [REDACTED] was proposed as an external adviser in another tender that we have received for the same call for tenders. We are also collecting the necessary evidence in this respect.

We would appreciate it if you could clarify the positioning of this expert and without prejudice of how this will be assessed within the selection criteria, we are kindly asking you in the circumstances, and although Prof. [REDACTED] is not a subcontractor but nonetheless ensuring for 13% of the contract, to produce some evidence of your undertaking on this expert to ensure that this he will be indeed at your disposal for the performance of the contract. One letter along the example of a letter of intent (annex 6) signed by this expert would be accepted.

We would be very grateful if you could reply by email to the point above by **Monday, 21/10 at the latest**, with the requested document sent by registered post by **Thursday, 24/10 at the latest** to my attention:
