

Article 5
Performance of duties

Participants in Frontex shall

- i. ensure that instructions, directives and required duties are carried out promptly and completely.
- ii. give special consideration to particularly vulnerable groups of people, including children, disabled people, persons susceptible to exploitation, the victims of exploitation or trafficking in human beings.

Commented [A1]: This should either be left in here or - even better- removed and put in a separate, stand-alone Article entitled something like 'treatment of vulnerable people'

Article 6
Behavioural Standards

Participants in Frontex activities whether on or off duty shall

1. abstain from all behaviour likely to compromise the prestige and the nature of the public mission in which they are invested or to bring discredit upon their organization or Frontex.
2. act with fairness and impartiality in their dealings with the public and other participants in Frontex activities, treating all with courtesy and respect, avoiding all forms of victimisation or discrimination, bearing in mind the diverse nature of all people, including backgrounds, origin and/or rank;
3. abstain from actions contrary to the public order;
4. refrain from using vulgar, obscene or otherwise offensive speech or gestures that could be considered abusive towards other participants in Frontex activities or the public.

Commented [A2]: I removed the reference to favouritism as unjust favouritism is covered by discrimination, which can be both positive and negative. I also replaced 'personnel' with the more precise 'participants in Frontex activities'.
