Dear

Following our evaluation, I regret to inform you that your application to be a member of the above mentioned expert group was unsuccessful as you did not successfully meet the selection criteria.

Due to the fact that the Working Group Gas Appliances (WG-GA) is currently geographically well balanced as all the members are only Europe-wide organisations and associations (and additionally the Member States), the selection of the DVGW-Forschungsstelle am Engler-Bunte-Institut des Karlsruher Institutes für Technologie would have deteriorated the geographical balance of the WG-GA. Furthermore, the interests presented by you (testing, conformity assessment, standardisation, education and research) are already represented by other members of the WG-GA. Therefore, the selection of the DVGW-Forschungsstelle would not ameliorate the balance that might need to be improved in any respect.

Nevertheless, I thank you very much for your interest showed in working for a Commission expert group.

Yours sincerely,

Dear

Thank you for your participation in the call for applications for the selection of experts as members of Commission expert group "Raw Materials Supply Group" under the responsibility of the Directorate-General for Enterprise and Industry.

For the reason that you are already member of the Raw Materials Supply Group, your application was not taken into account in the evaluation of this call as it concerned only selection of new members. Your status as a member of the Raw Materials Supply Group remains unchanged.

Yours sincerely,

Gwenole Cozigou

Following our evaluation, I regret to inform you that your application to be a member of the above mentioned expert group was unsuccessful as you did not meet the eligibility criteria related to the requirement for the candidate to represent non-industry interests such as the interests of consumers, employees or environmental issues.

Nevertheless, I thank you very much for your interest showed in working for a Commission expert group.

Yours sincerely,
