Meeting with CFE, 1/3/2018 - Discussion on DAC6 intermediaries

CFE: Commission:

CFE managed to get hold of the latest compromise text, but we made it clear to them that we are not in a position to discuss it in detail since negotiations are confidential and still on-going in Council.

The main points CFE raised included the need for practical guidance on some key aspects such as what is meant by “made available”, and their understanding that the group of intermediaries obliged to report has been expanded which makes the requirement to some extent clearer.

CFE will invite the Commission to attend a meeting of their professional affairs committee on 20/4/18 in BxIs. They will send an official invitation in the next few days.
