Dear [redacted], dear Jari

Following our conversations, I would like to update you on this.

We have now received the latest version of the Recommendation of the Committee of ministers after the expert group meeting, [redacted]

I'm including a clean version and one version with my annotations on problems

Now the text has left the expert group and is going up to the political level in the COE (**comite directeur end of October** and **Comite des Ministres in December**).

Together with DG CNECT we have agreed that EU coordination should be organised [redacted]
 [redacted] This means

- [redacted]
- [redacted]
- [redacted]

We should keep each other updated,

Thanks so much for your support, kind regards,

[redacted]
