Dear Mrs Bakran, [REDACTED]
we would like to thank you for your time and the open conversation last Wednesday.

As agreed we have summarized the concept of the platform in a short document; concerning the financial support we have seen that under H2020 there could be some budget lines available to support these kind of actions waiting for a more structured action within the next calls publication in 2020 (we have added it in the last part of the presentation).

Anyway, all the concept can be of course further developed and shaped according to your needs and suggestions and we will be glad to restart the discussion after the summer break.

Once again, thank you very much
With kind regards
[REDACTED]

We are part of Gasnaturally
