

The non-disclosed photo and text contains personal data, in particular the names and faces of individuals. Its disclosure would affect the privacy and integrity of the individual and is therefore precluded pursuant to the exception laid down in Article 4(1)(b) of Regulation (EC) No 1049/2001.

The non-disclosed text and images contain information regarding the technical equipment deployed in each operational area. Disclosing such information would be tantamount to disclosing the exact type, capabilities and weaknesses of the equipment, as well as their usual position, opening way for abuse. The result of this would only be to hamper the course of ongoing and future similar operations, ultimately obstructing their purpose to counter and prevent cross-border crime and unauthorized border crossings. In this light, the disclosure of such information would undermine the protection of the public interest as regards public security in the sense of the first indent of Article 4(1)(a) of Regulation (EC) No 1049/2001.

The non-disclosed text pertains to information crucial for situational awareness at the external borders of the EU which is used for risk analysis and in turn, operational decision making by the Agency. Disclosing this information publicly will disturb the effectiveness of Frontex operations as the risk analysis based on this information and used by Frontex to run its operations, would become common knowledge. If this information would become public the efforts carried out by the European Union and Member States to curtail criminal activities would be undermined. Furthermore, there is a real risk that disclosing all the variables and the information therein would benefit the smuggling networks who would change their modus operandi accordingly, thus putting the life of migrants in danger. The disclosure of those variables is therefore refused, as it would undermine the protection of the public interest as regards public security in the sense of Article 4(1)(a) of the Regulation (EC) No 1049/2001 of the European Parliament and of the Council of 30 May 2001 regarding public access to European Parliament, Council and Commission documents.

The non-disclosed image pertains to information crucial for situational awareness at the external borders of the EU which is used for risk analysis and in turn, operational decision making by the Agency. Disclosing this information publicly will undermine the effectiveness of Frontex operations as the risk analysis based on this information and used by Frontex to run its operations, would become common knowledge rather than intelligence to combat crime and prevent illegal cross-border activity. If this information would become public the efforts carried out by the European Union and Member States to curtail criminal activities would be jeopardized. Furthermore, there is a real risk that disclosing this information contained therein would be of benefit for the smuggling networks who would change their modus operandi accordingly, thus putting the life of migrants in danger. The disclosure is therefore refused, as it would undermine the protection of the public interest as regards public security in the sense of Article 4(1)(a) of the Regulation (EC) No 1049/2001 of the European Parliament and of the Council of 30 May 2001 regarding public access to European Parliament, Council and Commission documents.
