Main issues discussed

ACEA asked about the state of play of the US investigation on cars and of the Executive Working Group established on 25 July.

IGB explained the overall state of play on the implementation of the July Joint Statement.

ACEA informed that the report seems imminent but political calculation could report it to its natural deadline in mid-February.

IGB stressed the need for a firm approach, mentioned the preparation of a new rebalancing list and that we are following in parallel a negotiating pattern within the EWG. He also noted that US policies are counterproductive as they target friends and may hinder trilateral cooperation on the main origin of trade problems: China.
