Subject: RE: EU conference on Endocrine Disruptors - list of competent authorities that might be interested to participate

Dear Peter,

Thank you for informing us.

Indeed, I think our experts would be interested to follow up on this issue.

If needed, we can send the provided invitation via Circa.

Please find enclosed the link to our Experts responsible for the implementation

http://ec.europa.eu/enterprise/sectors/toys/files/implementation-authorities_en.pdf

Kind regards
maureen

Subject: EU conference on Endocrine Disruptors - list of competent authorities that might be interested to participate

Dear Maureen,

we are planning a conference on endocrine disruptors for 300 people which will take place on 11 and 12 June 2012 in Brussels. The conference is meant to bring together scientists, experts, regulators and stakeholders. We plan to address the invitation to Member States competent authorities / members of committees under various pieces of legislation (e.g. REACH, Biocides, Pesticides, Cosmetics, worker protection, water directives, food contact materials, etc). Do you think your constituency under the Toy's directive would be interested to participate? If yes, could you please send me a list of the constituency with e-mail addresses and organisation name.

Many thanks in advance,

Peter

Dear Robert,
I have just discovered that FoodDrinkEurope has not received an invitation to attend

EU Conference on Endocrine disruptors: Current challenges in science and policy

While I realise that this is organised by DG Environment, the topic is of relevance to us too and we are even planning to work on it from a scientific prospective.

Is there anything that can be done about this?

Thanks and best regards

Subject: FW: Endocrine Disruptors Conference 11-12 June 2012

Dear Guus,

Martin asked me to confirm that indeed he will chair session 4 (on criteria), however DGSANCO will not deliver a rapporteur for that same session. Martin prefers that the JRC delivers the rapporteur since they are involved in the expert group which dealt with criteria.
Do not hesitate to come back to me anything you need in relation to the conference.

I wish you a nice weekend

Met vriendelijke groet,

Wim

Subject: Endocrine Disruptors Conference 11-12 June 2012

Martin,

The programme of the ED conference envisages that the sessions 3 (on science), 4 (on criteria) and 5 (on policies) will have rapporteurs to capture the discussions in each session and to report to the session 6 to stimulate further discussion taking into account all three aspects together.

You have kindly agreed to chair the session 4 and I would like to ask whether DG SANCO would have an interest to provide a rapporteur for this session. In case of positive reply, I would appreciate if you could let us know who it would be. Alternatively, we can ask JRC colleagues involved in the expert group on EDs.

Many thanks for letting me know.

Guus

EU Conference on Endocrine disruptors: Current challenges in science and policy

Venue: European Commission, Charlemagne building, Room Alcide de Gasperi, Rue de la Loi 170, Brussels, Belgium

Dates: 11-12 June 2012

Draft Programme

11 June 2012

8:00 – 9:00	Registration
¼ hour	Session 1: Opening
9:00 – 9:15	Opening and Welcome by Janez Potočnik, European Commissioner for Environment (15 min)
¾ hour	Session 2: Key note
09:15 – 10:00	Endocrine disruption (45 min + no Q&A) Dr. Linda Birnbaum, National Institute of Environmental Health Sciences, US
10:10 - 10:30	Coffee break
3 ½ hour	Session 3: Effects of endocrine disruptors on human health and the environment, the nature of the risk from endocrine disruptors and emerging scientific issues relating to endocrine disruptors: current state of the science
10:30 – 10:40	Key note by Máire Geoghegan-Quinn, European Commissioner for Research, Innovation and Science (10 min)
10:40 – 12:45	Effects of Endocrine Disruptors on human health (25 min) Prof. Tracey Woodruff, University of California, San Francisco, US Wild-life effects of Endocrine Disruptors (25 min) Prof. Susan Jobling, Brunel University, Uxbridge, Middlesex, United Kingdom Are endocrine disruptors special? (25 min) Dr. Jerry Heindel, National Institute of Environmental Health Sciences, US Exposure to Endocrine disruptors: Which substances from which sources? (25 min) Prof. Åke Bergman, Department of Materials and Environmental Chemistry, Stockholm University, Sweden
12:30 – 13:30	Lunch

13:30 – 15:15	Panel of speakers stays on the podium and moderator stimulates discussion for 1 and ½ hour on the topic of the session <u>Panel:</u> 5 speakers
15:15 – 15:45	Coffee break
2 ½ hour	Session 4: Identification of endocrine disruptors
15:45 – 15:55	Key note by John Dalli, European Commissioner for Health and Consumer Policy (tbc) (10 min)
15:55 – 16:55	Status of current work under OECD (15 min) Dr. Laurence Musset, OECD, Paris, France Overview of proposals for identification of EDs and recommendations for development of criteria for identification of endocrine disruptors (45 minutes) Prof. Andreas Kortenkamp, Brunel University, Middlesex, United Kingdom
16:55 – 18:30	Panel of speakers stays on the podium and moderator stimulates discussion for 1 and ½ hour on the topic of the session. <u>Panel:</u> Laurence Musset (OECD), Andreas Kortenkamp (Brunel University),

12 June 2012

3 hours	Session 5: Policy objectives in relation to endocrine disruptors
----------------	---

9:00 – 9:10	Key note by EU Presidency (10 min)
9:10 – 10:45	European Commission's Perspective / Overview of current EU legislation (15 min) Patrick Murphy / Peter Korytár, European Commission, Brussels, Belgium EU Presidency's perspective (10 min) Henrik Soren Larsen, Danish EPA, Denmark US's perspective (10 min) Mary Manibusan, US EPA, United States of America Perspective of the Endocrine Society (10 min) R. Thomas Zoeller, University of Massachusetts, Amherst, United States of America NGO's perspective (10 min) Gwynne Lyons, CHEM Trust, United Kingdom Consumers' perspective (10 min) Sylvia Maurer, BEUC – The European Consumer Organisation, Brussels, Belgium Industry's perspective (10 min) Gernot Klotz, CEFIC – The European Chemical Industry Council, Brussels, Belgium Union's perspective (10 min) Laurent Vogel, ETUC – European Trade Union Confederation, Brussels, Belgium
10:45 – 11:15	Coffee break
11:15 – 13:00	Panel of speakers stays on the podium and moderator stimulates discussion for 1 and ¾ hour on the topic of the session <u>Panel:</u> 7 last speakers
13:00 – 14:00	Lunch
2 – 3 hours	Session 6: Summing up and closure
14:00 – 15:00	Reports from the sessions by rapporteurs of the sessions
15:00 – 16:00	Final discussion will be led by a moderator supported by a panel of experts. The objective will be to try and bring together key messages (NOT agreed conclusions)
16:00 – 17:00	CLOSE, Coffee

Dear Peter,

Thank you for consulting us on the draft programme.

At unit level we feel that DG SANCO should be represented, given the importance of endocrine disruptors for health and the various areas of legislation affected that are under our competence.

We will consult our hierarchy on a possible SANCO participation, including a financial contribution to the event and I will let you know as soon as possible.

All the best,

Francesca

Subject: Conference on endocrine disruptors : 11 and 12 June 2012

Dear Francesca,

as you know we are preparing a conference on EDs to be held in Brussels on 11 - 12 June 2012.

We have just prepared a first draft of the agenda which I am sending attached for your possible comments and suggestions.

Many thanks in advance and I wish you a happy and healthy 2012.

Ciao,

Peter

Conference on Endocrine Disruptors

Concept

To organise a high-level conference on endocrine disruptors in the first 6 months of 2012.

Justification

- Endocrine disruptors will be one of the major challenges for chemicals' policy in the 21st century.
- The Community strategy for endocrine disruptors was adopted in 1999, there is an urgent need to update this strategy.
- The Commission is required to develop criteria for the identification of endocrine disruptors that can be applied in the context of EU legislation. The first deadlines arise in 2013 under PPP, Biocides and REACH. Criteria will also be relevant for cosmetics and in relation to worker protection.
- There is a growing concern about a range of substances suspected to be endocrine disruptors and there is a growing number of Member States taking national regulatory actions;
- Endocrine disruptors are an issue of increasing priority and concern for the European Parliament.
- Endocrine disruption is a priority area of concern for the incoming DK Presidency.
- DG ENV has commissioned a major study on endocrine disruption and this study will be made available to the public in early 2012.

What are Endocrine Disruptors?

Disruption of the endocrine system can occur in various ways. Some chemicals mimic a natural hormone, fooling the body into over-responding to the stimulus (e.g., a growth hormone that results in increased muscle mass), or responding at inappropriate times (e.g., producing insulin when it is not needed). Other endocrine disrupting chemicals block the effects of a hormone from certain receptors (e.g. growth hormones required for normal development). Still others directly stimulate or inhibit the endocrine system and cause overproduction or underproduction of hormones (e.g. an over or underactive thyroid). Certain drugs are used to intentionally cause some of these effects, such as birth control pills. In many situations involving environmental chemicals, however, an endocrine effect is not desirable

Objectives of the Conference

- To provide input for the shaping of future EU policy on endocrine disruptors.
- To collect input with regard to the development of the criteria for the identification of endocrine disruptors.
- To increase awareness regarding the challenge of tackling endocrine disruptors.

Participants (Total +/- 300)

- High level sessions will involve the Commissioner, DK Minister and MEPs plus invitees from outside the EU including OECD and UN bodies.
- Representatives of Member States (policy makers and scientific experts)
- Stakeholder representatives- NGOs and Industry.
- Commission services and concerned EU Agencies.
- Academics

Structure of the Conference

- 2 day meeting
- Opening session with high-level participation.
- Closing session with high-level participation and conference conclusions.
- Sessions devoted to specific subjects
- Sessions would have chairs, panels and rapporteurs.

Subjects for Discussion in the Sessions

- Effects of endocrine disruptors on human health and the environment
- The nature of the risk from endocrine disruptors
- Contentious scientific issues relating to endocrine disruptors
- Policy objectives in relation to endocrine disruptors
- Criteria for identifying endocrine disruptors.

Location

- Brussels, Charlemagne building

Date

- 11 and 12 June 2012

Who organises and who pays?

- DG ENV is the organizer (and will finance the event) possibly together with JRC and or RTD.
- EP and Presidency could be invited to indicate their support for the event as well as attending. However, this will not be a joint event.

DG ENV Commitments

- Most participants pay their own travel accommodation etc.
- DG ENV covers costs of speakers and chairs.
- DG ENV covers cost of venue, facilities, conference services, refreshments and may be lunches and a conference dinner
- DG ENV Covers costs of preparing content, papers, conference conclusions etc.

Conference on Endocrine disruptors

Venue: European Commission, Charlemagne building, Room Alcide de Gasperi, Rue de la Loi 170, Brussels, Belgium

Dates: 11-12 June 2012

Draft Programme

11 June 2012

8:00 – 9:00	Registration
	Session 1: Ministerial
9:00 – 10:00	Ministerial session Opening and Welcome by Commissioner Potocnik (15 min) Key note from the EU Presidency (Danish Environment Minister) (15 min) Key note from a MEP (15 min)
	Session 2: Key note lecture
10:00 – 10:45	Presentation for 35 minutes followed by Q&A for 10 minutes Topic: Overview on the field of endocrine disruptors: what EDs are, how are they interacting with the human and animal/plant health, history of ED evidence discoveries, what are the threats of EDs; why are EDs a problem; what is the nature of the risk Possible speakers: Dr. Linda Birbaum, Director of National Institute of Environmental Health Sciences, US, OR Dr. John Peterson Myers, Co-author of the book 'Our stolen future – are we threatening our fertility, intelligence and survival?' published in 1996, OR A.N.OTHER
10:45 – 11:15	Coffee break
	Session 3: Effects of endocrine disruptors on human health and the environment, the nature of the risk from endocrine disruptors and emerging scientific issues relating to endocrine disruptors
11:15 – 12:30	Presentations for 1 hour followed by Q&A for 1/2 hour Topics: Cancers, Fertility problems, Obesity, Behaviour effects, Neurodevelopment, Epigenetics, Low dose effect or non-monotonic dose-response curve, socio-economic consequences; epidemiological evidence of the effects Possible speakers: Members of the drafting team for WHO report, OR, Prof. Kortenkamp team; Academics (Japan (Prof. Kano)/France/Spain); NGOs; Industry;

12:30 – 13:30	Lunch
13:30 – 15:00	Panel of speakers stays on the podium and moderator stimulates discussion with pre-prepared questions for 1 and ½ hour on the topic of the session
15:00 – 15:30	Coffee break
	Session 4: Policy objectives in relation to endocrine disruptors
15:30 – 18:00	<p>Presentations for 1 hour followed by Q&A and moderated discussion for 1 1/2 hour; the panel of speakers stays on the podium</p> <p>Topics:</p> <ul style="list-style-type: none"> - Current legislation and endocrine disruptors (overview of the legislation in the EU); View of representative stakeholder groups - MS, Industry, NGOs, maybe USA as an example of an approach from outside EU - on the appropriate policy response to address risks posed by EDs; <p>Possible speakers:</p> <p>Patrick MURPHY/Peter KORYTAR (overview of current legislation), NGO, Industry, Danish Presidency, US EPA</p>

12 June 2012

	Session 5: Identification of endocrine disruptors
9:00 – 10:30	<p>Presentations for 1 hour followed by Q&A and moderated discussion for 1 1/2 hour; the panel of speakers stays on the podium</p> <p>Topics:</p> <p>Definition; What level of evidence/causality is required; Which data should be used for identification (GLP/ ISO / guidance methods/ scientific articles); Data produced on old test methods vs. data produced on updated test methods – is time ripe to ask for re-testing?; Overview of the proposals for the testing (Kortenkamp proposal); controversial issues in the decisions – potency, lead effect, what to do when you have a weak effect; OECD (framework, test methods suitable for ED identification, guidance document) – is it actually useful all this work? Why do we have level 3 and 4 test methods?</p> <p>Possible speakers:</p> <p>Prof. Kortenkamp team (overview of current proposals-DE/UK; DK/Fr; ECETOC; NGOs); OECD (status of current work),</p>
10:30 – 11:00	Coffee break
11:00 – 13:00	Panel of speakers stays on the podium and moderator stimulates discussion with pre-prepared questions for 2 hours on the topic of the session
13:00 – 14:00	Lunch
	Session 6: Summaries
14:00 – 15:00	Reports from the sessions by moderators of the sessions
15:00 – 16:00	Final discussion will be led by a moderator supported by a panel of prominent experts. The objective will be to try and bring together key messages (NOT agreed conclusions)
16:00 – 17:00	CLOSE, Coffee

ENV/D3/JBR/PK/fb/Ares (2012)

Invitation to the EU conference on "Endocrine Disruptors: Current challenges in science and policy" to be held in Brussels on 11 and 12 June 2012

The European Commission is organising a conference on endocrine disruptors on 11 and 12 June 2012. I am pleased to invite you to this conference, which aims to bring together all major stakeholders to discuss the challenges posed by endocrine disruptors. The presentations and discussions will cover the identification of endocrine disruptors, their effects on human health and the environment, the risks, and policy objectives.

The outcome of the conference will feed into the review of the current Community strategy on endocrine disruptors adopted in 1999. It will also provide input to the Commission's upcoming proposal for criteria for the identification of substances with endocrine disrupting properties.

A recently published¹ major study on State of the Art Assessment of Endocrine Disruptors provides essential background material for the conference.

As will be clear from the attached draft programme, we have managed to attract several of the world's leading experts on the subject. Should you decide to participate and you are interested in speaking directly with one or some of these experts, could you please inform Jonath Blokker-Rowe (jonath.blokker-rowe@ec.europa.eu or Tel. +32-2-296 7908) before 14 May 2012. We will then do our best to make the necessary arrangements in the margins of the conference.

Please note that there is no charge for registered participants to attend the conference. However the European Commission cannot provide any assistance in relation to the costs (travel, accommodation etc) associated with your attendance.

¹ http://ec.europa.eu/environment/endocrine/documents/studies_en.htm

PROGRAMME

A draft programme for the conference is attached to this invitation. Please note that this programme may be subject to change. A final version will be sent to registered participants before the conference.

The working language of the conference will be English.

REGISTRATION

Participation in the conference is by invitation only. You are kindly requested to complete the registration procedures by 14 May 2012 via the following link:

<http://event.iservice-europa.eu/registration/eds-eu-conference>

Yours sincerely,

Bjørn Hansen

Subject: Invitation to the EU conference on Endocrine Disruptors: Current challenges in science and policy to be held on 11 and 12 June 2012 in Brussels

The Community Strategy for Endocrine Disruptors was adopted in 1999. In the intervening years there has been a significant increase in scientific knowledge and understanding as well as an increasing awareness of the challenges associated with endocrine disrupting substances. Several pieces of EU legislation now include specific references to endocrine disruptors. Many international and national initiatives have also been launched/are in progress.

The European Commission has announced its intention to review and if appropriate to revise the existing strategy. In addition, by the end of 2013 the Commission is also required under the Plant Protection Product Regulation and the Biocidal Products Regulation to come forward with proposals for criteria for the identification of substances with endocrine disrupting properties. By June 2013 the Commission is also required to review the way that endocrine disrupting substances are authorised under REACH.

Deciding on the appropriate response to the challenge of endocrine disruptors must be based on a constructive and transparent dialogue between the different stakeholders. With a view to promoting such a dialogue, the European Commission is holding a

E-mail: gustaaf.borchardt@ec.europa.eu

conference on endocrine disruptors to take place in Brussels on 11 and 12 June 2012. The purpose of the present letter is to invite you to attend or to be represented at the conference.

Recently DG Environment published on its website¹ a major study on State of the art assessment of Endocrine Disruptors carried out by an external contractor. This study provides essential background material for the conference.

PROGRAMME

A draft programme for the conference is attached to this invitation. Please note that this programme is subject to change. A final version will be sent to registered participants before the conference.

The working language of the conference will be English.

REGISTRATION

Participation in the conference is by invitation only. You are invited to participate or to nominate a representative(s). By 14 May 2012, you are kindly requested to complete the registration procedures details of which can be found at the following address:

<http://event.iservice-europa.eu/registration/eds-eu-conference>

In the absence of the registration information being completed by the indicated date we will assume that you do not intend to participate/be represented at the conference and we will re-attribute the places to other participants.

Yours sincerely,

Gustaaf Borchardt

Subject: RE: EU Conference on Endocrine Disruptors

Dear Frans,

as I explained on the phone, the reason is rather simple. I have not been aware of those expert committees and I was not made aware of them by your colleagues.

However, I have not problem to issue for those expert groups an additional invitation or as I explained if there is an interest they can just register as food contact authorities.

Peter

Dear,
Dear Peter,

I refer to the note here below. I believe the note was drafted by you.

I received the question from a Member State why the members of the Working Group "Food Contact Materials" and the competent authorities for pesticides have been personally invited but not the members of the Expert Committee "POPs in Food" and "Environmental/industrial contaminants in Food" while several of these contaminants have also (suspected) endocrine disrupting activity.

I would be grateful if you could provide me with a justification of the selection to whom the invitation has been sent, so that I can forward this to Member States as a reply to their question.

Silly but sensitive question: Can we be allotted 7 participants for the SCs instead of 6 for the Conference? There is high interest and rather than fighting it I prefer to accommodate them if you agree.

Thanks

Also I would like to discuss the issue of the involvement of the SCs/Agencies to the ad hoc group. It is a contentious point but maybe we can work it out.

Subject: FW: Message from Bjorn Hansen to Wim Penning Re participation of Scientific Committee in the Conference

Dear Wim,

as promised at the SANCO/ENV meeting which took place on 30th March, I would like to come back to you regarding your suggestion of the participation of members of the non-food scientific Committees in the Endocrine Disruptor Conference being organised by DG ENV and taking place on 11 and 12 June 2012.

I indeed agree with you that inviting members of the Scientific Committee to participate in the conference would be a very good addition. Given the limitations on numbers and the high demand for the conference we would suggest that the number of SC members participating in the conference be limited to 6 persons.

Regarding the practicalities, could you confirm my understanding from our discussions on 30th March that you would make the necessary arrangements for the choice of the Committee members and for supporting the costs of their attendance at conference. For the other participants in the conference, invitations, registration, security, badges and conference folders etc are being taken care of by an outside contractor. As the participation of the Scientific Committee members will not be organised through our contractor I would like to request that you inform us by 30th May of the names and contact details of the SC members who will be attending the conference. We can then pass this information to the contractor who will arrange for access, conference badges, etc.

In addition to the conference itself our colleagues in DG RTD, are organizing a side-event to the conference on the evening of 11th June. This side event has the objective of bringing together the European scientists attending the conference and who have in the past or who are currently carrying out projects relating to endocrine disruptors supported by one of the framework programmes. This side event will take the form of a dinner discussion (venue to be determined). The SC members who attend the conference are also welcome to attend the side-event. Further details of this event can be obtained from Tuomo Karjalainen or Lara Passante.

Attached you will find the latest version of the conference programme, plus a short document providing background to the side-event.

Greetings

Subject: FW: Latest version of programme

Maya, with apologies for the delay. Here is the latest version of the programme. Please note that the interventions foreseen from the 3 Commissioners and the Danish Minister will be in the form of video messages.

For each of the sessions we will have chairpersons and the panel discussions will be managed by a professional moderator. Concerning Mr Seychell's involvement we would suggest that he might wish to chair session 4 starting at 15:00 on 11th. This session concerns the criteria for the identification of endocrine disruptors which is a key issue for DG SANCO. It is also the session which is foreseen to start with the video message from Commissioner Dalli.

In addition and depending on Mr Seychell's availability, you might wish to consider having the final session (session 6) of the conference co-chaired by Guus Borchardt and Mr Seycell.

It may be that Mr Seychell's participation in the conference will be discussed at the DG SANCO/DG ENV meeting on endocrine disruptors to be held on 30th March but this message may in any case help you in planning Mr Seychell's agenda for the week of the conference.

Best wishes.

Patrick Murphy

Subject: FW: Message from Bjorn Hansen to Wim Penning Re participation of Scientific Committee in the Conference

Dear Wim,

as promised at the SANCO/ENV meeting which took place on 30th March, I would like to come back to you regarding your suggestion of the participation of members of the non-food scientific Committees in the Endocrine Disruptor Conference being organised by DG ENV and taking place on 11 and 12 June 2012.

I indeed agree with you that inviting members of the Scientific Committee to participate in the conference would be a very good addition. Given the limitations on numbers and the high demand for the conference we would suggest that the number of SC members participating in the conference be limited to 6 persons.

Regarding the practicalities, could you confirm my understanding from our discussions on 30th March that you would make the necessary arrangements for the choice of the Committee members and for supporting the costs of their attendance at conference. For the other participants in the conference, invitations, registration,

security, badges and conference folders etc are being taken care of by an outside contractor. As the participation of the Scientific Committee members will not be organised through our contractor I would like to request that you inform us by 30th May of the names and contact details of the SC members who will be attending the conference. We can then pass this information to the contractor who will arrange for access, conference badges, etc.

In addition to the conference itself our colleagues in DG RTD, are organizing a side-event to the conference on the evening of 11th June. This side event has the objective of bringing together the European scientists attending the conference and who have in the past or who are currently carrying out projects relating to endocrine disruptors supported by one of the framework programmes. This side event will take the form of a dinner discussion (venue to be determined). The SC members who attend the conference are also welcome to attend the side-event. Further details of this event can be obtained from Tuomo Karjalainen or Lara Passante.

Attached you will find the latest version of the conference programme, plus a short document providing background to the side-event.

Greetings

Subject: RE: People and units in SANCO interested in EDs

Dear Peter,
that list should be ok.

Thanks,

Laura

Dear Laura, as discussed please add others (if any) who could be interested in EDs.

Many thanks,

Peter

Dear Takis,

we do not envisage any report from the conference.
Please find enclosed CBs of the speakers of session 4.

Peter

Good morning Peter,

As we are preparing our briefing for our DDG can you help me with a couple of questions:

1. Is there going to be a report coming out of the Conference?
2. Any chance to get the CVs of the speakers for session 4 today?

Thanks

Takis
