The Chair and the Secretariat of the Board provided the FOP members with a state of play on the current situation: [REDACTED]

It was suggested to have the draft opinions prepared by a dedicated team of rapporteurs from the Technology subgroup in liaison with the Secretariat. Several DPAs already had expressed their interest to participate in the drafting team at the Technology subgroup meeting. In this regard it was agreed that the Chair Coordination Team will send out a call for rapporteurs, followed by their confirmation at the next plenary in order to start the work on the draft opinions asap.

ICANN: Future engagement strategy

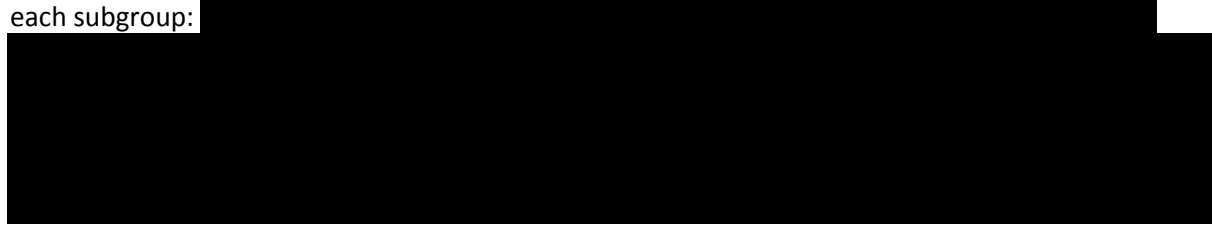

On 10 May 2018, ICANN addressed a letter to the WP29, raising a number of questions which had already been the topic of discussion during the meeting between ICANN and WP29 members on 23 April 2018. A draft answer to this letter was agreed by the Technology subgroup and will be submitted for adoption at the EDPB Plenary of 4-5 July 2018.

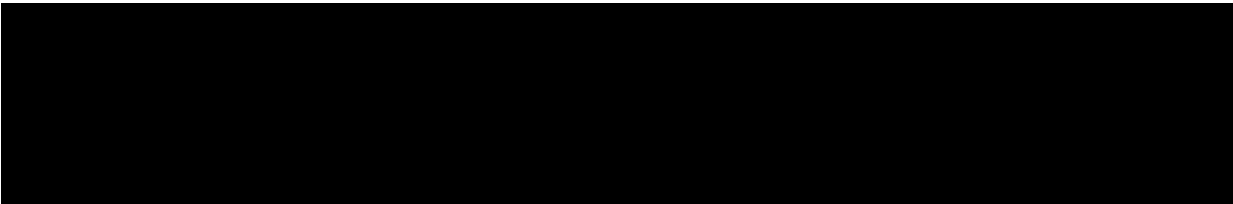

Members of the FOP were invited to share their views on what strategy to apply for the further interaction with ICANN.

Judgment in Wirtschaftsakademie (C-201/16): implications for the EDPB enforcement strategy

The FOP members suggested to assess the possible implications of the Judgement at the level of each subgroup:

Coordinators' meeting: Future of the Subgroups - summary of the discussions

The Chair together with the Secretariat of the Board provided the FOP members with a state of play regarding the discussions that had taken place at the Coordinators' meeting on 15 June 2018.

The discussions at the FOP revolved around the rebranding of the FOP and the eGovernment subgroup. Further the procedure for handling article 65 cases was discussed.

The FOP members agreed that the Chair will take the raised discussion points into account and give it some further thinking in order to provide the EDPB with name suggestions as the next step.

The FOP members agreed that for the time being, the Enforcement SG and the Cooperation SG will have to work back to back instead of being merged.

The question of handling "article 65 GDPR" decisions was raised. Due to the short deadline to issue such a decision, there is a need to determine a workflow for the effective and swift handling of those cases. FOP Members also underlined the importance to issue a workflow for article 66 GDPR as well.

Several DPAs supported the idea, that it should be possible to discuss cases in the article 65 and 66 procedure in an ad hoc expert subgroup, if deemed to be necessary, e.g. in a complex case, in order to support the decision making by the EDPB

Miscellaneous

- The Chair informed about the sent out letter regarding her recent/up-coming speaking engagements (e.g. Bloomberg Tv, Wallstreet Journal...).
- The Chair asked EDPB members to provide her with numbers of complaints to be dealt with at each DPA. Especially laying down the comparison of the number of cases before 25 May 2018 and afterwards. This is important to support the credibility of the EDPB as well as it is important that DPAs are aware of the issues brought to each other.
