b) Questionnaires on secrecy + investigation powers

During the last Plenary, the Enforcement subgroup highlighted the importance of a full response to questionnaires – especially where the different national procedural rules are concerned. The Enforcement subgroup has announced the re-issuing of four of its most pressing earlier questionnaires: on secrecy, on inspection powers (upon foreign investigators), on enforcement communication and on fines on public bodies.

After getting in contact with the Secretariat and the initiators of the questionnaires, the two first questionnaires were re-issued by the Secretariat. More than 10 answers are still missing. Therefore, the Secretariat will circulate again the questionnaires for the members to answer. The deadline will be 12 October.

As to the two other questionnaires, they will be sent out by the Secretariat. The results will be collected and disseminated by the Secretariat as soon as possible.
