Dear Commissioner, Dear Neven,

Thank you for your trust and support since my nomination to become the first ever Special Envoy for the promotion of FoRB outside the EU. I had very good cooperation with your Cabinet led by Nils Behrndt and with DG DEVCO.

Previous year was pioneering one for this role, as it was about building trust and bridges with the EU institutions, Member States and CSOs, including faith-based organisations and religious leaders. I had also several important and successful missions in countries like Jordan, Iraq, UAE, Sudan, Morocco. Basically, this fruitful time established the base for current continuity and for the new, adapted Work Plan which I am attaching for you. It is the result of consultation and cooperation with you and your Cabinet, with key Commission's Services, EEAS and the EP.

I am ready to inform you personally in coming time about the results of my work and to discuss some key issues for the future EU policy in relation to FoRB protection and sustainable development goals promotion. With fairly developed FoRB agenda the EU may become even stronger and more credible protagonist of so much needed humanity, responsibility and solidarity in the current world.

Best regards,

Ján Figel'
