To: European Data Protection Board
Subject: FW: Access to draft decisions

Dear Sir/madam

I am PhD-fellow within data protection law. I am currently researching privacy risks.

When a supervisory authority intends to issue a list of processing operations subject to a data protection impact assessment the European Data Protection Board is consulted. The opinions of the European Data Protection Board are public, but the draft lists from the supervisory authorities are not. Although the opinion of the European Data Protection Board can lead to revisions, the draft is still relevant. The supervisory authorities' drafts shows which factors the authorities consider risky.

I would therefore request access into the draft list of the data protection supervisory authorities listed below. To help you identify the draft lists, I have included the number of the EDPB opinion.

I will be very grateful for your assistance and thank you on beforehand for your time. It will greatly inform my research.

Yours sincerely [REDACTED]
