

## A single pathway to 2050?

19 March 2020, Renaissance Hotel, Brussels

### Programme

13.00 – 14.00 **Registration & lunch**

14.00 **Welcome speech – Philippe Sauquet, President of Eurogas**

#### **Keynote Speeches**

**Frans Timmermans**, First Executive Vice-President, European Green Deal, European Commission

**Tomislav Čorić**, Minister of Environmental Protection and Energy, Croatia

14.30 **Panel 1: Energy in 2050 - What will it look like?**

Is gas just a transition fuel or will gas be part of the destination? How will we produce energy in the future and how will the way we consume energy have to change?

#### Speakers

[Redacted] WindEurope  
[Redacted] Hydrogen Europe  
**Michael Hood**, Mayor of Gateshead (UK)  
[Redacted] Economist, Oxford Institute of Energy Studies  
[Redacted] GasLog Ltd.

15.30 – 15.50 **Coffee break**

15.50 – 16.50 **Panel 2: Financing a sustainable economy?**

The energy transition will be costly. Making the energy transition a success will require funding to be adequately channelled into the most cost-effective solutions that consider the energy trilemma of energy security, energy equity and environmental sustainability.

#### Speakers

[Redacted] Oil & Gas Climate Initiative  
[Redacted] European Investment Bank  
[Redacted] Financing Growth, European Banking Federation  
[Redacted] United Nations Economic Commission for Europe (UNECE)  
[Redacted] BNP Paris Asset Management
