About EU-LIFE

EU-LIFE is an alliance of research centres whose mission is to support and strengthen European research excellence (www.eu-life.eu). EU-LIFE members are leading research institutes in their countries and internationally renowned for producing excellent research, widely transferring knowledge and nurturing talent. The basis for the foundation of EU-LIFE was the perception that there was a gap in the science policy landscape regarding the representation of independent research centres. Since its foundation in 2013, EU-LIFE has become a stakeholder in European policy participating regularly in the EC policy dialogue.
