

Land- en Tuinbouw Organisatie Nederland (LTO Nederland), 22/1/2020

██████████ and ██████████ explained the situation the Netherlands and the risks of “Nexit” supported by many famers. The underlined the need to work closely with farmers and explain the implications of the Green Deal. The also emphasized the need to work along the food chain, rather than to target farmers by FtF.

They informed about Skylark and its success in NL. The also supported the role of eco-schemes. Finally, they underlined the need to make a better link between consumers and famers.
