

**Meeting between Andrea Beltramello and Afore Consulting –
10/02/2020**

The meeting focused on the topics of the upcoming Annual Conference on FinTech and Regulation: how to best organise from a regulatory and supervisory standpoint the relationship between supervised entities and third party technology providers; how technology and FinTech can contribute to completing Capital Markets Union; the role of global technology companies in financial services and what are the opportunities and threats arising from an open infrastructure for technology in retail finance. Crypto assets, artificial intelligence and cyber security would also be discussed.

The meeting also focused on private initiatives to improve non-financial reporting, including on social aspects, notably in the audit sector.
