

Subject:

FW: Samsung

 meets Samsung, 23 January 2020

3 factories in EU, 2.000 employees in R&D in Warsaw

AI: application of GDPR to data used for training outside EU?

5G: Samsung increasingly active in Open RAN. taking on bigger deployments.

Cybersecurity: Need for common approach across instruments (RED, Machinery Directive, CSA voluntary certification)

Common chargers: Samsung uses USB-C on all devices by 2021-22 – could be a good basis for a common approach. Decoupling of chargers from device sales would be complex.
