To: SANTE ACCESS TO DOCUMENTS
Subject: access to documents request - Public Safety 5G network

Dear Health and Food Safety,

Under the right of access to documents in the EU treaties, as developed in Regulation 1049/2001, I am requesting documents which contain the following information:

Please would you clarify why you have been in favour of 5G knowing that it is highly detrimental to human health as well as for animal and wildlife health.

What research have you done to back up your decision to want to allow this to roll out knowing it is bad for human health.

You must know the effects on human health as you are Public Health England and it is public knowledge that 5G is dangerous. There has been a great deal of research into this technology that shows how bad it is for human health. What are you sending out to local councils to ensure they are aware of the health risks also?

I look forwards to your detailed reply which will be placed on social media.
